NATIONAL SERVICE SCHEME

The National Service Scheme (NSS) at SVCET is an integral part of the institution, committed to fostering social responsibility and holistic development among students. The college management provides full support by offering the necessary infrastructure and resources to ensure the successful execution of NSS initiatives. The primary objective of the NSS unit is to instil a sense of civic duty, leadership, and community engagement among students, preparing them to contribute effectively to society.

Throughout the academic year, various community service programs, awareness campaigns, and skill-building activities are conducted to help students develop their social awareness, teamwork, and problem-solving abilities. The NSS unit encourages students to take initiative in volunteering for social causes, ensuring they develop a well-rounded personality and a commitment to national development.

To oversee these initiatives, an NSS Committee has been formed under the leadership of the principal, comprising dedicated faculty coordinators and student volunteers. This team works towards the implementation of impactful programs, promoting social welfare, environmental sustainability, and national integration. Through NSS, SVCET empowers students to become responsible citizens and changemakers in society.
