TRAINING AND PLACEMENT COMMITTEE

The Training and Placement Cell is an essential part of SVCET, dedicated to enhancing students' career prospects. The college management is fully committed to providing the necessary infrastructure and resources to support the cell's initiatives. The primary objective of the Placement Cell is to equip students with the skills and opportunities required for successful placements.

Throughout the academic year, various training programs and activities are conducted to help students develop their technical expertise, analytical abilities, and soft skills. The Training and Placement Cell encourages students to take initiative in honing their professional attributes, ensuring they are industry-ready.

To oversee these initiatives, a Training and Placement (T&P) Committee has been formed under the leadership of the principal, comprising dedicated members who work towards the holistic development of students and their successful placement in reputed organizations.
