A ONE DAY WORKSHOP ON

TITLED FROM INSPIRATION TO IMPLICATION: A ROADMAP FOR INNOVATION

14TH SEPTEMBER 2021

Organized by
ENTREPRENEURSHIP DEVELOPMENT CELL

SRI VENKATESWARA COLLEGE OF ENGINEERING & TECHNOLOGY
Accredited by NAAC "A" GRADE
(Affiliated by JNTUK Kakinada & Approved by AICTE)
ETHERLA, SRIKAKULAM.
ANDHRA PRADESH. 532 410

www.svcet.info

ABOUT THE COLLEGE:

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow end owed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

ABOUT EDC:

Entrepreneurship Development Cell (EDC) is being promoted in SVCET to develop institutional mechanism to create entrepreneurial culture and to foster entrepreneurship for generation of wealth and employment. To guide and assist prospective entrepreneurs on various aspects such as preparing project reports, obtaining project approvals, loans and facilities from agencies of support system, information on technologies, To arrange interaction with entrepreneurs and create a mentorship scheme for student entrepreneurs.

Cell is a core area in an Engineering College which complements the efforts of the members of faculty by organizing value-added programs and providing placement opportunities to students. The cell continuously coordinates with various industries and organizations for placement of the students.

ABOUT THE WORKSHOP:

A one day workshop on 'Titled From Inspiration to implication a road map for innovation' is a beneficial objective in the field of Entrepreneurship. It is a practical tool for helping participants to develop Personal Entrepreneurial Competencies (PECs) Entrepreneurship is a dynamic process of vision change and creation. It requires an application of energy and passion towards the creation and implementation of new ideas and creative solutions. Essential ingredients include the willingness to take calculated risks – in terms of time, equity, or career; the ability to formulate an effective venture team; the creative skill to marshal needed resources; and fundamental skill of building solid business plan.

RESOURCE PERSON AND TOPICS

PROGRAM REPORT

Date:14/09/2021

EDC Cell is organise A One-day Workshop on Titled From inspiration to implication: A Road map for innovation.

The following member is invited as a Resource person for the Workshop

MR. Dr .K Venugopal Rao, Associate Professor Dept of MBA Aditya Institute of Technology & Managemnt, Tekkali, srikakulam.

highlighted the importance of Bridging the gap from ideas to innovations

The expert sessions covered various aspects of Bridging the gap from ideas to innovations:

- **From Concept to Breakthrough:**

Empowering Entrepreneurship to Bridge the Innovation Gap

- **Understanding the Innovation Gap:**

The innovation gap refers to the disparity between the creation of new ideas and their successful implementation. This gap hinders progress and economic growth. By empowering entrepreneurship, we can bridge this gap and drive impactful change.

- **The Power of Entrepreneurship:**

Entrepreneurship is the catalyst for change. It empowers individuals to turn innovative concepts into reality, driving economic growth and creating opportunities. By fostering an entrepreneurial mindset and providing necessary support, we can unlock the full potential of innovation.

PRINCIPAL

Sri Venkateswara College of Engineering & Technology
ETCHERLA, Srikakulam-532410 (A.P)

- **Overcoming Challenges:**

Building a successful venture requires resilience and adaptability. Entrepreneurs face numerous challenges such as limited resources, market competition, and uncertainty. However, by embracing these challenges as opportunities for growth, entrepreneurs can navigate the path to breakthrough innovation.

All the Participants felt highly impressed and motivated of the seminar. They feel that it is a real time experience for them in participating in the seminar.

OBJECTIVES OF THE PROGRAM

The objective of the program is to bring awareness in the students about to bridge the innovation gap, we must provide aspiring entrepreneurs with access to resources, mentorship, and networking opportunities. By creating a supportive ecosystem, we can empower entrepreneurship and foster an environment conducive to breakthrough innovation.

OUTCOMES OF THE PROGRAM

All the students who are participate in the program have felt free and realized the importance of knowledge about Empowering entrepreneurship is key to bridging the innovation gap. By embracing an entrepreneurial mindset, overcoming challenges, and providing necessary support, we can drive breakthrough innovation and create a thriving ecosystem of innovation and entrepreneurship.

Department Vision:

Our vision is to be a global leader in computer science and engineering education, research, and innovation.

Department Mission:

Our mission is to advance the frontiers of computer science and engineering through excellence in education, research, and innovation. We are committed to providing our students with a comprehensive and cutting-edge education that prepares them to become leaders and innovators in the rapidly evolving field of computing.

Objective:

The objective of the program is to provide participants with actionable takeaways, such as resources for further learning, contacts for intellectual property professionals, and practical tips for integrating intellectual property rights into their creative and innovative activities.

Expected Outcomes:

Attendees will develop a comprehensive understanding of various types of intellectual property rights, including patents, copyrights, trademarks, and trade secrets, and how they incentivize creators and innovators.

PROGRAM REPORT

Date 22-09-2021

It is to inform that **A One Day Seminar on Intellectual Property Rights: Incentives for Creation** has been conducted during 21th Sept 2021 in the Digital hall of BS&H department.

RESOURCE PERSON:

Mr. H. Srinivas
Assistant Professor
CSE Dept
SVCET
Srikakulam

CO-ORDINATOR:

Mr. D. Srinivas Rao
Asst. Professor
CSE Department,
SVCET

Number of Students Participated: 37

OBJECTIVES OF THE PROGRAM

The objective of the program is to educate participants about the role of Intellectual Property Rights (IPR) as incentives for creativity and innovation, including how IP protection encourages investment in research and development. To provide participants with a comprehensive understanding of the fundamentals of Intellectual Property Rights (IPR), including patents, trademarks, copyrights, and trade secrets.

OUTCOMES OF THE PROGRAM

Creators and innovators will acquire practical skills and strategies for leveraging intellectual property rights to build and grow their businesses, attract investment, and compete in the marketplace.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology ETCHERLA were established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values".

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that links science, technology and problem solving skills to acquire knowledge of the design, implementation, and management of information systems of both hardware and software. You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area of Computer Science and Engineering with an intake of 60. The Department of CSE offers many courses that can be chosen as electives by the students of the other departments.

Department Vision

Our vision is to be a global leader in computer science and engineering education, research, and innovation.

Department Mission

Our mission is to advance the frontiers of computer science and engineering through excellence in education, research, and innovation. We are committed to providing our students with a comprehensive and cutting -edge education that prepares them to become leaders and innovators in the rapidly evolving field of computing.

PROGRAM REPORT

It is to inform that **A ONE DAY SEMINAR ON DATA SCIENCE AND BIG DATA ANALYTICS: UNLEASHING THE POWER OF THE DATA** has been conducted on **08th Feb 2022** [10.00 Am to 04.00 PM] in the Digital Hall of CSE Department. The following member is invited as a Resource person for the seminar.

Resource person: **P. S. S. R. M. Raju, Associative professor, Sagar Degree College Srikakulam.**

Sri. Mr. Sanapala Bhaskara Rao HOD of CSE Dept. is the coordinator of the program.

The seminar left a lasting impression on all attendees, igniting a sense of motivation and enthusiasm. They expressed genuine interest and recognized the seminar's importance, deeming it a valuable real-time learning opportunity.

OBJECTIVES OF THE PROGRAM

The objective of the program is to bring awareness in the Encourage participants to apply the knowledge gained from the seminar to solve real-world problems and harness the potential of data-driven decision-making.

OUTCOMES OF THE PROGRAM

All the students who have participated in **A ONE DAY SEMINAR ON DATA SCIENCE AND BIG DATA ANALYTICS: UNLEASHING THE POWER OF THE DATA** have felt free and realized the importance of research and Attendees gain practical skills and tools to analyze large datasets, extract meaningful insights, and make informed decisions, hereby enhancing organizational efficiency and competitiveness. **29 students participated in the program.**

ABOUT THE COLLEGE:

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow end owed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

ABOUT EDC:

Entrepreneurship Development Cell (EDC) is being promoted in SVCET to develop institutional mechanism to create entrepreneurial culture and to foster entrepreneurship for generation of wealth and employment. To guide and assist prospective entrepreneurs on various aspects such as preparing project reports, obtaining project approvals, loans and facilities from agencies of support system, information on technologies, To arrange interaction with entrepreneurs and create a mentorship scheme for student entrepreneurs.

Cell is a core area in an Engineering College which complements the efforts of the members of faculty by organizing value-added programs and providing placement opportunities to students. The cell continuously coordinates with various industries and organizations for placement of the students.

ABOUT THE WORKSHOP:

A one day workshop on 'Research based strategies for student led innovation' is a beneficial objective in the field of Entrepreneurship. It is a practical tool for helping participants to develop Personal Entrepreneurial Competencies (PECs). Entrepreneurship is a dynamic process of vision change and creation. It requires an application of energy and passion towards the creation and implementation of new ideas and creative solutions. Essential ingredients include the willingness to take calculated risks – in terms of time, equity, or career; the ability to formulate an effective venture team; the creative skill to marshal needed resources; and fundamental skill of building

PROGRAM REPORT

Date: 16.02/2022

EDC Cell organised A One-day Workshop on Titled Research for Innovations New Pathways for students

The following member is invited as a Resource person for the Workshop

Dr. P. Ravi Kumar, Associate Professor Dept of MBA, SITAM, Vizianagaram.

highlighted the importance of innovation new pathways for students

The expert sessions covered various aspects of innovation new pathways for students:

- **The Significance of Research:**

Research plays a pivotal role in education, providing a solid foundation for knowledge acquisition and critical thinking. Through research, students can develop analytical skills, problem solving abilities, and independent thinking. It fosters a deeper understanding of subjects and encourages students to explore new ideas. By embracing research, we can empower students to become lifelong learners and active contributors to society.

- **Exploring New Pathways:**

Innovative approaches to research offer exciting opportunities for student empowerment. By integrating technology, interdisciplinary collaboration, and real-world applications, we can open new pathways to learning. Students can engage in data analysis, design experiments, and contribute to meaningful research projects. This multidimensional approach not only enhances academic growth but also equips students with valuable skills for the future.

- **Empowering Students Through Research:**

Research empowers students by nurturing curiosity, creativity, and critical thinking. It encourages them to question, explore, and seek answers independently. Through research, students become active participants in their own learning journey, developing a sense of ownership and self confidence. By empowering students to conduct research, we enable them to make meaningful contributions, solve problems, and become agents of change.

All the Participants felt highly impressed and motivated of the seminar. They feel that it is a real time experience for them in participating in the seminar.

OBJECTIVES OF THE PROGRAM

The objective of the program is to bring awareness in the students about While research offers immense benefits, it also presents challenges. Time constraints, access to resources, and research skills can pose obstacles. However, by fostering a supportive environment, providing mentorship, and integrating research into the curriculum, we can overcome these challenges. Empowering students through research requires a collective effort from educators, institutions, and policymakers.

OUTCOMES OF THE PROGRAM

All the students who are participate in the program have felt free and realised the importance of knowledge about As we conclude, let us recognize the transformative power of research in empowering students. By embracing research as an integral part of education, we can unlock the potential within each student, foster a passion for learning, and prepare them for a future of continuous growth. Together, let us embark on a journey of exploration, innovation, and empowerment through research.

ABOUT THE PROGRAM

Objective:

This workshop aims to equip mechanical engineering students with the knowledge and skills needed to explore and engage in research opportunities effectively, fostering their development as future researchers and innovators And Explore current and emerging research areas within mechanical engineering

Expected Outcomes:

All The Students Who Have Participated In A One Day Seminar On **"A ONE-DAY WORKSHOP FOR MECHANICAL ENGINEERING STUDENTS: EXPLORING RESEARCH OPPORTUNITIES"** Have Felt Free And Recognize the significance of research in mechanical engineering and its role in technological advancements and solving real-world problems By achieving these outcomes, participants will be well-equipped to embark on research projects, contribute to advancements in mechanical engineering, and pursue further academic or professional research opportunities.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology ETCHERLA were established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values".

ABOUT THE DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim.

The Mechanical Engineering department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

DEPARTMENT VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

DEPARTMENT MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research. To inculcate professional and ethical values related to industry, society and environment.

PROGRAM REPORT

It is to inform that “**A ONE-DAY WORKSHOP FOR MECHANICAL ENGINEERING STUDENTS: EXPLORING RESEARCH OPPORTUNITIES**” has been conducted on **09/03/2022** [10am to 4pm] in the Seminar hall of MECH Department.

The following member is invited as a Resource person for the seminar.

NAME: Dr. J. Bala Bhaskar Rao, Professor, Principal, Professor, Principal, Sri Sivani Engineering College (SSCE), Chilakapalem

Mr.G.Hareesh, Asst.prof, MECH Dept, is the coordinator of the program.

Number of Students attended: 36

The Resource person has explained about importance and scope of research in mechanical engineering and Explore current and emerging research areas within mechanical engineering. All the participants felt highly impressed and motivated of the Seminar.

OBJECTIVES OF THE PROGRAM

This workshop aims to equip mechanical engineering students with the knowledge and skills needed to explore and engage in research opportunities effectively, fostering their development as future researchers and innovators And Explore current and emerging research areas within mechanical engineering

OUTCOMES OF THE PROGRAM

All The Students Who Have Participated In “**A ONE-DAY WORKSHOP FOR MECHANICAL ENGINEERING STUDENTS:EXPLORING RESEARCH OPPORTUNITIES**” Have Felt Free And Recognize the significance of research in mechanical engineering and its role in technological advancements and solving real-world problems.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology ETCHERLA were established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values".

ABOUT THE DEPARTMENT

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B. Tech in Civil Engineering. The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center **with an intake of 60.** They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability.

DEPARTMENT VISION

Emerge as a Center of pre-eminence in Engineering, education, research and services.

DEPARTMENT MISSION

- To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.
- To inculcate professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates

RESOURCE PERSON

Dr .G. Suryanarayana
Professor,

Asst. Professor

CSE Department

SVCET

Number of Students Participated: 57

OBJECTIVES OF THE PROGRAM

The objective of the program is to provide participants with a comprehensive understanding of the role of Intellectual Property Rights (IPR) in Information Technology (IT). Through interactive sessions and case studies, attendees will gain insights into the fundamental concepts of IPR, explore the unique challenges and opportunities it presents within the IT sector, and delve into the legal frameworks governing intellectual property protection. By the end of the seminar, participants will be equipped with practical strategies for navigating IPR issues in IT, fostering innovation while ensuring the ethical and legal protection of intellectual property.

assets, ultimately empowering them to make informed decisions and contribute effectively to the dynamic landscape of IT innovation and development.

OUTCOMES OF THE PROGRAM

One outcome of this seminar would be participants leaving with a heightened awareness of the critical importance of intellectual property rights in the realm of Information Technology, equipped with practical strategies to navigate IPR challenges effectively within their respective professional contexts.

ABOUT THE PROGRAM

Objective:

This seminar aims to provide bring awareness in the young technical minds with the knowledge and skills needed to explore and engage in research and development of IoT applications in electrical engineering, fostering innovation and advancements in the field. Recognize and Identify key research areas the impact and potential of IoT technologies on modern electrical engineering applications.

Expected Outcomes:

All The Students Who Have Participated In A One Day Seminar On “**A ONE DAY SEMINAR ON RESEARCH ON RECENT TRENDS IN IOT**” Have Felt Free And Realized and Gained a comprehensive understanding of IoT basics and its significance in electrical engineering. And also Identify key research areas and current trends in IoT specific to electrical engineering.

Sri Venkateswara College of Engineering & Technology ETCHERLA were established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values".

ABOUT THE DEPARTMENT

Electrical and Electronics Engineering is a profession that uses science, technology and problem solving skills to design construct and maintain products. It is a challenging but exciting and rewarding area to study. The department of EEE was established in 2008 with aim of importing high quality technical education in the area of Electrical and Electronics Engineering with an intake of 60. The department offers post graduate program in the specialization of Power Electronics. The department of EEE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

The EEE Department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

DEPARTMENT VISION

To be a globally recognized center of excellence in Electrical and Electronic Engineering, pioneering innovations that shape the future of technology and society.

DEPARTMENT MISSION

Our mission is to provide transformative education, conduct cutting-edge research, and foster innovation in Electrical and Electronic Engineering to address global challenges and improve quality of life.

RESOURCE PERSON

PROGRAM REPORT

It is to inform that "A ONE-DAY SEMINAR ON RESEARCH AND DEVELOPMENT OF IOT APPLICATIONS IN ELECTRICAL ENGINEERING" has been conducted on 06/03/2019 [10am to 4pm] in the Seminar hall of EEE department.

The following member is invited as a Resource person for the seminar.

NAME: Dr.P.Bala Murali, Ph.D, Associate Professor, Dept of EEE, AITAM College, Tekkali

Mr.K.Seetharamayya, Asst.proff EEE Dept, is the coordinator of the program.

Number of Students attended: 40

The Resource person has explained about importance and scope of research and development of IoT applications in electrical engineering and Explore current and emerging research areas within Electrical Engineering. All the participants felt highly impressed and motivated of the Seminar.

OBJECTIVES OF THE PROGRAM

The objective of the program is to bring awareness in the young technical minds with the knowledge and skills needed to explore and engage in research and development of IoT applications in electrical engineering, fostering innovation and advancements in the field. Recognize and Identify key research areas the impact and potential of IoT technologies on modern electrical engineering applications.

OUTCOMES OF THE PROGRAM

All The Students Who Have Participated In "A ONE DAY SEMINAR ON RESEARCH ON RECENT TRENDS IN IOT" Have Felt Free And Realized and Gained a comprehensive understanding of IoT basics and its significance in electrical engineering. And also identify key research areas and current trends in IoT specific to electrical engineering. Total 40 students participated in the program.
