ABOUT THE COURSE

Objective:

- The main goal of the course is to guide you from a state of complete programming illiteracy to a level of programming knowledge which allows you to design, write, debug, and run programs encoded in the Python language
- To understand the basic concepts of software development technology.

Expected Outcomes:

- The course will prepare you for jobs and careers connected with widely understood software development, which includes not only creating the code itself as a junior developer, but also computer systems design and software testing.
- Practice skills in resolving typical implementation challenges.
- Use the most important elements of Python Standard Library.
- Install your runtime environment, Write your own Python programs

Institute Vision :

- Emerge as a Center of Excellence and Eminence to produce globally competent professionals adorn with social values.

Institute Mission:

- To impart a perfect blend of value based, industry relevant, quality education towards employable graduates who are technically competent, communicative and ethically upright.

PROGRAM REPORT

Topic	A One Day ICT & Computing Program on “Python Essentials ”
Venue	Seminar Hall, Block-A
Time	10:00AM to 4:00PM
Date	13/03/2023 (Monday)
Resource Person	Mr. M. Venugopal Rao , Talent Shine, Vizag
Coordinator	Mr S.Bhaskara Rao

Description

Department of CSE, Sri Venkateswara College of Engineering and Technology has organized a One Day ICT & Computing Program on “Python Essentials ”for IV B.Tech students of all branches. A total of 129 students have attended the program.

Mr. M. Venugopal Rao has clearly illustrated the importance of Python Essentials concepts. Our instructor explained that the main goal of the course is to guide us from a state of complete programming illiteracy to a level where we can design, write, debug, and run programs encoded in Python.

He emphasized that by the end of the course, we would not only be proficient in Python but also have a solid understanding of the basic concepts of software development technology.

He assured us that the course would prepare us for jobs and careers in the broad field of software development.

This preparation includes not only the creation of code itself, potentially starting as junior developers, but also extends to areas such as computer systems design and software testing. Essentially, he wanted us to understand that this course is comprehensive and would equip us with the necessary skills to enter various roles within the software development industry.

The program was conducted successfully with the coordination of the faculty members of CSE. Students participated actively and interacted with resource person.

ABOUT THE COURSE

Objective:

- The primary objective of digital marketing is to increase brand visibility, attract and engage target audiences, and ultimately drive conversions and sales through various online channels such as social media, search engines, email, and websites.

Expected Outcomes:

- Digital marketing efforts should result in measurable outcomes such as increased website traffic, higher conversion rates, improved brand awareness and recognition, enhanced customer engagement and loyalty, and ultimately, a positive return on investment (ROI).
- These outcomes are achieved through strategic planning, targeted messaging, and continuous optimization of digital campaigns to align with business goals and objectives.

Institute Vision :

- Emerge as a Center of Excellence and Eminence to produce globally competent professionals adorned with social values.

Institute Mission:

- To impart a perfect blend of value based, industry relevant, quality education towards employable graduates who are technically competent, communicative and ethically upright.

PROGRAM REPORT

Topic	A One Day ICT & Computing Program on “ Digital Marketing ”
Venue	Seminar Hall,Block - A
Time	10:00AM to 4:00 PM
Date	12/03/2022 (Saturday)
Resource Person	Dr.K.Satyam , Professor, HoD
Coordinator	Mr. M. Raja Mohan

Description

Department of MBA, Sri Venkateswara College of Engineering and Technology has organized a One Day ICT & Computing Program on “**Digital Marketing**” for IV B.Tech students of all branches. A total of 54 students have attended the program.

Resource person explained digital marketing in a comprehensive and engaging manner. He described it as the promotion of brands with the aim of connecting with potential customers through the internet and various forms of digital communication.

This encompasses a wide array of strategies and tools, including email marketing, social media campaigns, and web-based advertising. Additionally, he pointed out that text messages and multimedia messages are also crucial components of digital marketing channels.

The explanation highlighted how diverse and multifaceted digital marketing is, emphasizing its importance in today's business landscape.

The program was conducted successfully with the coordination of the faculty members of MBA. Students participated actively and interacted with resource person.

ABOUT THE COURSE

Objective:

- The objective of utilizing Informatica is to streamline and automate the process of data integration, ensuring efficient and reliable movement of data across various systems and platforms.
- It aims to enhance data quality, reduce errors, and accelerate decision-making processes by providing timely access to accurate and consistent data.

Expected Outcomes:

- Through the implementation of Informatica, organizations can expect improved data governance and compliance, enhanced business agility, and better insights derived from comprehensive and trustworthy data.
- Additionally, it enables cost reduction through optimized data management processes and increased productivity through automation of repetitive tasks.
- Ultimately, the outcome is a more competitive and data-driven organization capable of adapting to changing business requirements with agility and confidence.

Institute Vision:

- Emerge as a Center of Excellence and Eminence to produce globally competent professionals adorn with social values.

Institute Mission:

- To impart a perfect blend of value based, industry relevant, quality education towards employable graduates who are technically competent, communicative and ethically upright.

Description

Department of ECE, Sri Venkateswara College of Engineering and Technology has organized a One Day ICT & Computing Program on “**INFORMATICA**” for IV B.Tech students of all branches. A total of 183 students have attended the program.

Resource person painted a vivid picture of Informatica as a beacon of innovation in the software development realm. He emphasized how Informatica serves as a guiding light for businesses seeking to harness the power of data and AI to elevate their performance.

He delved into the intricacies of Informatica's Intelligent Data Management Cloud, portraying it as a versatile platform capable of seamlessly handling data of various types, patterns, and workloads across diverse locations. With an unwavering commitment to industry standards, our instructor highlighted how Informatica's platform harmonizes with any reference architecture, ensuring compatibility and scalability.

The program was conducted successfully with the coordination of the faculty members of ECE. Students participated actively and interacted with resource person.

ABOUT THE COURSE

Objective:

- The primary goal of cloud computing is to provide on-demand access to a shared pool of computing resources, including networks, servers, storage, applications, and services, delivered over the internet.

Expected Outcomes:

- By leveraging cloud computing, organizations can achieve greater flexibility, scalability, and cost-efficiency in managing their IT infrastructure.
- They can rapidly deploy and scale resources according to demand, reducing the need for upfront investments in hardware and software.
- Additionally, cloud computing enables enhanced collaboration, agility, and innovation by facilitating access to advanced technologies and tools.
- Overall, the adoption of cloud computing can lead to improved operational efficiency, business agility, and competitive advantage in today's digital landscape.

Institute Vision :

- Emerge as a Center of Excellence and Eminence to produce globally competent professionals adorn with social values.

Institute Mission:

- To impart a perfect blend of value based, industry relevant, quality education towards employable graduates who are technically competent, communicative and ethically upright.

PROGRAM REPORT

Topic	A One Day ICT & Computing Program on “Cloud Computing (AWS) ”
Venue	Seminar Hall, Block - A
Time	10:00AM to 4:00 PM
Date	08/02/2020 (Saturday)
Resource Person	Dr. Somaraju Mouli
Coordinator	Mr. S. Bhaskara Rao

Description

Department of CSE, Sri Venkateswara College of Engineering and Technology has organized a One Day ICT & Computing Program on “Cloud Computing (AWS) ” for IV B.Tech students of all branches. A total of 109 students have attended the program.

Resource person explained cloud computing in a concise and straightforward manner. He said that cloud computing is the delivery of computing resources like storage, servers, networking, and software over the internet.

This means that users can access these resources on demand, instead of having to buy, own, and maintain physical data centers and servers.

By using cloud computing, businesses can lower their operating costs, run their infrastructure more efficiently, and easily scale their operations as their needs change.

The program was conducted successfully with the coordination of the faculty members of CSE. Students participated actively and interacted with resource person.

ABOUT THE COURSE

Objective:

- The Introduction to Linux course aims to familiarize students with the fundamentals of the Linux operating system, including its architecture, command-line interface, and basic system administration tasks.

Expected Outcomes:

- By the end of the course, students will be able to navigate the Linux file system, execute commands using the terminal, manage users and permissions, install and update software packages, and troubleshoot common issues.
- They will also develop a foundational understanding of Linux concepts and be prepared for more advanced coursework or professional roles involving Linux systems.

Institute Vision :

- Emerge as a Center of Excellence and Eminence to produce globally competent professionals adorned with social values.

Institute Mission:

- To impart a perfect blend of value based, industry relevant, quality education towards employable graduates who are technically competent, communicative and ethically upright.

PROGRAM REPORT

Topic	A One Day ICT & Computing Program on "Introduction to Linux"
Venue	Auditorium, Block - C
Time	10:00AM to 4:00PM
Date	28/03/2019 (Thursday)
Resource Person	Mr. S. Bhaskara Rao, Asst Prof. in CSE
Coordinator	Mr. A. Appa Rao

Description

Department of EEE, Sri Venkateswara College of Engineering and Technology has organized a One Day ICT & Computing Program on "Introduction to Linux" for IV B.Tech students of all branches. A total of 120 students have attended the program.

Resource person explained that Linux is an open-source operating system that manages a system's hardware and resources, like the CPU, memory, and storage. It's written in computer languages such as C and other assembly languages. Linux, which is similar to UNIX, forms the foundation of the modern IT stack and is used in a wide range of devices, including smart phones, cars, home appliances, desktops, refrigerators, and thermostats.

He emphasized that Linux is highly configurable due to its modular design, allowing users to customize their own versions of the operating system. Depending on the application, Linux can be optimized for different purposes, such as enhancing networking performance, improving computation performance, deploying on specific hardware platforms, or running on systems with limited memory, storage, or computing resources.

Users have the flexibility to choose different Linux distributions for specific applications or adapt a particular distribution by incorporating custom kernel configurations.

The program was conducted successfully with the coordination of the faculty members of EEE. Students participated actively and interacted with resource person.
