List of Add-on Programs/Certificate Programs

Academic Year: 2018-19

S.No	Name of the Program	Duration/Date	Number of Participants
1	A Two week certificate Program on "CRYPTOGRAPHY AND NETWORK SECURITY"	11.02.2019 to 22.02.2019	81
2	A Two week certificate Program on "INTERNET of THINGS"	20.08.2018 to 31.08.2018	39
3	A Two week certificate Program on "CONTROL SYSTEM ENGINEERING "	28.01.2019 to 08.02.2019	44
4	A Two week certificate Program on "ELECTRICAL ENGINEERING IN RECENT TRENDS"	20.08.2018 to 01.09.2018	52
5	A Two week certificate Program on "RENEWABLE ENERGY SOURCES "	28.01.2019 to 08.02.2019	80
6	A Two week certificate Program on "NANO TECHNOLOGY FOR MECHANICAL ENGINEERS "	16.07.2018 to 27.07.2018	80
7	A Two week certificate Program on "EMERGING TECHNOLOGIES AND TRENDS IN CELLULAR COMMUNICATIONS INCLUDING 5G "	25.03.2019 to 05.04.2019	53
8	A Two week certificate Program on "FIR & IIR FILTER DESIGNING TECHNIQUES USING MATLAB"	30.07.2018 to 10.08.2018	53
9	A Two week certificate Program on "FOUNDATION ENGINEERING "	21.01.2019 to 02.02.2019	76
10	A Two week certificate Program on "TOTAL STATION AND DGPS FOR HIGH RAISE BUILDINGS "	13.08.2018 to 25.08.2018	57
11	A Two week certificate Program on "FINANCIAL MARKETS "	04-02-2019 to 15-02-2019	120
12	A Two week certificate Program on "ADVERTISING AND BRAND MANAGEMENT"	25-06-2018 to 07-07-2018	61

CIRCULAR

It is hereby informed to all the III & IV B.Tech CSE and M.Tech (CSE) students, that the Department of CSE is conducting **A Two week certificate Program** on **"CRYPTOGRAPHY AND NETWORK SECURITY"** from 11.02.2019 To 22.02.2019. The students shall register their name with coordinator on or before 06.02.2019.

A Two week Certificate Program on

CRYPTOGRAPHY AND NETWORK SECURITY

11.02.2019 to 22.02.2019

Program Schedule

Academic Year: 2018-19

Date: 31.01.2019

S.No	Date	Topics to be Covered	Name of The Resource Person
1	11-02-19	Security Goals, Cryptographic Attacks, Services and Mechanisms	Dr. Somaraju Mouli M.Tech., Ph.D
2	12-02-19	Mathematics of Cryptography	Dr. Somaraju Mouli M.Tech., Ph.D
3	13-02-19	Mathematics of Symmetric Key Cryptography	S. Bhaskara Rao M.Tech
4	14-02-19	Introduction to Modern Symmetric Key Ciphers, Data Encryption Standard, Advanced Encryption Standard.	S. Bhaskara Rao M.Tech
5	15-02-19	Mathematics of Asymmetric Key Cryptography, Asymmetric Key Cryptography	Dr. Somaraju Mouli M.Tech., Ph.D
6	18-02-19	Data Integrity, Digital Signature Schemes & Key Management	Dr. Somaraju Mouli M.Tech., Ph.D
7	19-02-19	Message Integrity and Message Authentication	S. Bhaskara Rao M.Tech
8	20-02-19	Cryptographic Hash Functions, Digital Signature, Key Management.	S. Bhaskara Rao M.Tech
9	21-02-19	Security at application layer: PGP and S/MIME, Security at the Transport Layer: SSL and TLS	Dr. Somaraju Mouli M.Tech., Ph.D
10	22-02-19	Security at the Network Layer: IPSec, System Security	Dr. Somaraju Mouli M.Tech., Ph.D

ABOUT THE PROGRAM

Cryptography prior to the modern age was effectively synonymous with encryption, converting readable information (plaintext) to unintelligible nonsense text (ciphertext), which can only be read by reversing the process (decryption). The sender of an encrypted (coded) message shares the decryption (decoding) technique only with the intended recipients to preclude access from adversaries.

Objective :

Classical systems, symmetric block ciphers (DES, AES, other contemporary symmetric Ciphers), Public-key cryptography (RSA, discrete logarithms), and web security, viruses, firewalls, digital right management.

Outcome:

To master fundamentals of secret and public cryptography, To master protocols for security services, To be familiar with network security threats and countermeasures, To be familiar with network security designs using available secure solutions (such as PGP, SSL, IPsec, etc)

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUK, Kakinada. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE CSE DEPARTMENT:

The Department of Computer Science and Engineering was established in 2008. The department offers four-year B.Tech Programs in CSE and two-year M.Tech programs. It has a rich tradition and well-qualified faculty, along with widely recognized laboratories. The department aims to provide a strong foundation in Computer Science and Engineering fundamentals, emphasizing mathematical and scientific principles. Additionally, the course focuses on developing skills in the application of design processes for innovative engineering solutions. The annual intake of students in CSE is 60.

DEPARTMENT VISION:

Emerge as a center of Pre-eminence in Computer Science and Engineering Education, Research and Services.

DEPARTMENT MISSION:

- To produce graduates with scientific and technical knowledge and excellent Computer Science and Engineering skills for professional practice, employment, advanced study and research.

- To introduce professional and ethical values related to industry, society and environment.

- To interact with industries, to meet their requirements through employable graduates.

Web : www.svcet.info, Email : principal_svcet@yahoo.com

The Department of Computer Science and Engineering organized a Two Week certificate program on “**CRYPTOGRAPHY AND NETWORK SECURITY**” for III & IV B.Tech and M.Tech(CSE) Students. Cryptography prior to the modern age was effectively synonymous with encryption, converting readable information (plaintext) to unintelligible nonsense text (ciphertext), which can only be read by reversing the process (decryption). The sender of an encrypted (coded) message shares the decryption (decoding) technique only with the intended recipients to preclude access from adversaries. The cryptography literature often uses the names "Alice" (or "A") for the sender, "Bob" (or "B") for the intended recipient, and "Eve" (or "E") for the eavesdropping adversary.^[6] Since the development of rotor cipher machines in World War I and the advent of computers in World War II, cryptography methods have become increasingly complex and their applications more varied. Totally 81 students participated in this training program and after the completion of the program the students able to understand the following objectives and learning outcomes.

Course Objectives: The student will be able to

In this course the following principles and practice of cryptography and network security are covered:

- Classical systems, symmetric block ciphers (DES, AES, other contemporary symmetric ciphers)
- Public-key cryptography (RSA, discrete logarithms),
- Algorithms for factoring and discrete logarithms, cryptographic protocols, hash functions, authentication, key management, key exchange, signature schemes,
- Email and web security, viruses, firewalls, digital right management, and other topics.

Course Outcomes (COs): At the end of the course, student will be able to

To be familiarity with information security awareness and a clear understanding of its importance.

- To master fundamentals of secret and public cryptography
- To master protocols for security services
- To be familiar with network security threats and countermeasures
- To be familiar with network security designs using available secure solutions (such as PGP, SSL, IPSec, etc)

ABOUT THE PROGRAM

The Internet of things (IoT) describes devices with sensors, processing ability, software and other technologies that connect and exchange data with other devices and systems over the Internet or other communications networks.

Objective :

Identify problems that are amenable to solution by AI methods, and which AI methods may be suited to solving a given problem. Design and carry out an empirical evaluation of different algorithms on problem formalization, and state the conclusions that the evaluation supports.

Outcome:

Demonstrate knowledge and understanding of the security and ethical issues of the Internet of Things. Conceptually identify vulnerabilities, including recent attacks, involving the Internet of Things

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUK, Kakinada. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE CSE DEPARTMENT:

The Department of Computer Science and Engineering was established in 2008. The department offers four-year B.Tech Programs in CSE and two-year M.Tech programs. It has a rich tradition and well-qualified faculty, along with widely recognized laboratories. The department aims to provide a strong foundation in Computer Science and Engineering fundamentals, emphasizing mathematical and scientific principles. Additionally, the course focuses on developing skills in the application of design processes for innovative engineering solutions. The annual intake of students in CSE is 60.

DEPARTMENT VISION:

Emerge as a center of Pre-eminence in Computer Science and Engineering Education, Research and Services.

DEPARTMENT MISSION:

- To produce graduates with scientific and technical knowledge and excellent Computer Science and Engineering skills for professional practice, employment, advanced study and research.
- To introduce professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable graduates

The Department of Computer Science and Engineering organized a Two Week certificate program on **"INTERNET OF THINGS"** for II Year B.Tech CSE. The **Internet of things (IoT)** describes devices with sensors, processing ability, software and other technologies that connect and exchange data with other devices and systems over the Internet or other communications networks. The Internet of things encompasses electronics, communication, and computer science engineering. "Internet of things" has been considered a misnomer because devices do not need to be connected to the public internet; they only need to be connected to a network^[6] and be individually addressable. The field has evolved due to the convergence of multiple technologies, including ubiquitous computing, commodity sensors, and increasingly powerful embedded systems, as well as machine learning. Older fields of embedded systems, wireless sensor networks, control systems, automation (including home and building automation), independently and collectively enable the Internet of things.^[10] In the consumer market, IoT technology is most synonymous with "smart home" products, including devices and appliances (lighting fixtures, thermostats, home security systems, cameras, and other home appliances) that support one or more common ecosystems and can be controlled via devices associated with that ecosystem, such as smartphones and smart speakers. IoT is also used in healthcare systems. Totally 39 students participated in this training program and after the completion of the program the students are able to understand the following objectives and learning outcomes.

Course Objectives: The student will be able to

- Identify problems that are amenable to solution by AI methods, and which AI methods may be suited to solving a given problem.
- Formalize a given problem in the language/framework of different AI methods (e.g., as a search problem, as a constraint satisfaction problem, as a planning problem, as a Markov decision process, etc).
- Implement basic AI algorithms (e.g., standard search algorithms or dynamic programming).
- Design and carry out an empirical evaluation of different algorithms on problem formalization, and state the conclusions that the evaluation supports.

ABOUT THE PROGRAM

The two-week workshop on Control System Engineering aims to equip participants with a solid understanding of control system principles, practical skills in system design and implementation, and insights into industry applications and trends. Through a combination of lectures, hands-on activities, case studies, and projects, participants are prepared to tackle real-world control engineering challenges and pursue further education or career opportunities in the field

Objective :

the objective of a two-week workshop on Control System Engineering is to provide participants with a comprehensive understanding of control system fundamentals, practical experience with control system design and analysis, and insights into real-world applications and advanced topics. By combining theoretical instruction with hands-on exercises and collaborative activities

Expected Outcome:

The two-week workshop on Control System Engineering aims to equip participants with the knowledge, skills, and practical experience needed to design, analyze, and implement control systems in various engineering applications. Through hands-on activities, collaborative projects, and networking opportunities, participants emerge with a solid foundation in control system fundamentals, proficiency in software tools, and the confidence to apply their skills to real-world challenges in control system engineering

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUGV, Vizianagaram. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE DEPARTMENT

Electrical and Electronics Engineering is a profession that uses science, technology and problem solving skills to design construct and maintain products. It is a challenging but exciting and rewarding area to study. The department of EEE was established in 2008 with aim of importing high quality technical education in the area of Electrical and Electronics Engineering with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE.

DEPARTMENT VISION

To be a globally recognized center of excellence in Electrical and Electronic Engineering, pioneering innovations that shape the future of technology and society

DEPARTMENT MISSION

Our mission is to provide transformative education, conduct cutting-edge research, and foster innovation in Electrical and Electronic Engineering to address global challenges and improve quality of life.

Number of Students attended : 44

Venue: Class Room- VLSI lab.

Sri Venkateswara College of Engineering and Technology, Organized a Certificate Program on **A Two week Work Shop on Control System engineering**. For the final year B.Tech Students By the Resource Persons Mrs.Nagalla Sowjanya & Mr.J.Hareesh has highlighted following points.

Objectives:

Grasp the basic concepts of control systems, including open-loop and closed-loop systems. Learn to model dynamic systems using differential equations, transfer functions, and state-space representations. Analyze system stability, transient, and steady-state responses in both time and frequency domains. Design and understand feedback mechanisms to improve system performance and robustness.

S

Learning Outcomes:

- Demonstrate a thorough understanding of the basic principles of control systems, distinguishing between open-loop and closed-loop systems.
- Develop mathematical models of dynamic systems using differential equations, transfer functions, and state-space representations.
- Analyze the stability, transient response, and steady-state response of control systems using time-domain and frequency-domain methods

This course was very useful to the students and their feedback is positive. The management and Principal of SVCET thanked the resource Person and participants for making the program successful.

ABOUT THE PROGRAM

The program "Electrical Engineering in Recent Trends" offers participants a comprehensive overview of the latest advancements and emerging technologies in the field. Through lectures, discussions, case studies, and hands-on activities, participants gain valuable insights, practical skills, and networking opportunities to excel in the dynamic and rapidly evolving field of electrical engineering

Objective :

the objective of the program "Electrical Engineering in Recent Trends" is to empower participants with the knowledge, skills, and insights needed to thrive in a rapidly evolving field and contribute to positive societal impact through innovative electrical engineering solutions

Expected Outcome:

The program "Electrical Engineering in Recent Trends" aims to provide participants with a broad understanding of recent advancements, trends, and challenges in the field of electrical engineering. Through presentations, discussions, hands-on activities, and networking opportunities, participants gain insights into cutting-edge technologies, research frontiers, and career pathways, fostering a sense of curiosity, inspiration, and lifelong learning in electrical engineering

To be a globally recognized center of excellence in Electrical and Electronic Engineering, pioneering innovations that shape the future of technology and society

DEPARTMENT MISSION

Our mission is to provide transformative education, conduct cutting-edge research, and foster innovation in Electrical and Electronic Engineering to address global challenges and improve quality of life.

Number of Students attended : 52

Venue: Class Room- DSD lab.

Sri Venkateswara College of Engineering and Technology, Organized a Certificate Program on **Two week workshop on "ELECTRICAL ENGINEERING IN RECENT TRENDS"**. For the final year B.Tech Students By the Resource Person **Dr.P.Devendra** has highlighted following points.

Objectives:

The workshop aims to provide participants with a comprehensive overview of the latest trends and advancements in electrical engineering. This includes exploring new technologies, innovative methodologies, and their applications in various sectors. The objective is to ensure participants are well-versed with the current state of the field and the driving forces behind these advancements.

Learning Outcomes:

- Participants can explain the concepts and technologies behind smart grids and renewable energy integration, recognizing the challenges and solutions associated with modernizing the grid and incorporating renewable energy sources.
- Participants have gained knowledge of the latest developments in power electronics and electric vehicle technologies, including power conversion techniques and battery management systems, enabling them to engage with the evolving EV industry.
- Participants are familiar with smart home technologies and building automation systems, understanding how these systems improve energy efficiency, security, and comfort in residential and commercial buildings.

This course was very useful to the students and their feedback is positive. The management and Principal of SVCET thanked the resource Person and participants for making the program successful.

ABOUT THE PROGRAM

Renewable Energy is clean form of energy and it is replacing conventional fuel for different power generation and various applications. After Montreal and Kyoto protocol, a world is inclined towards renewable energy. Various Renewable energies are more attractive due to its availability and ecofriendly nature. Major renewable energy applications have relative smaller payback period which makes them more economical.

Objective :

To introduce Renewable Energy Concept to participants from engineering institutions and industries.

To make familiar with current state of art in the area of Renewable Energy.

To Introduce Renewable Energy applications in domestic level.

To discuss industrial applications of renewable energy. To discuss research areas in renewable energy applications.

Expected Outcome:

upon completion of this course the student will be able to:

The concept of renewable energy was very well understood by the participants.

The participants are familiarized with the current scenario of the renewable energy. They were also introduced the use of Renewable energy at the domestic level efficiently. The experts had discussed various pros and cons of Renewable energy applications from industrial point of view.

www.svcet.info

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society- the corporate social responsibility arm of SVCET Group and affiliated to JNTUK, Kakinada. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE DEPARTMENT:

Mechanical Engineering is a field that utilizes science, technology, and problem-solving skills to design, construct, and maintain products. It is a challenging yet fascinating and fulfilling area of study. Founded in 2008, the Department of Mechanical Engineering aims to deliver high-quality technical education in Mechanical Engineering with an initial intake of 120 students. Affiliated with Jawaharlal Nehru Technological University, Kakinada and approved by AICTE, the department offers various courses that students from other departments can choose as electives. The curriculum is designed to elevate the college to the standards of advanced institutions. The department is dedicated to enhancing Industry-Institute Interaction in academics and research, as well as developing infrastructure to meet industry requirements.

DEPARTMENT VISION:

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

DEPARTMENT MISSION:

- To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
- To introduce professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable graduates.

RESOURCE PERSONS:

PROGRAM REPORT

NAME OF THE PROGRAM : A Two week certificate Program on “Renewable Energy Sources

DATE : 28.01.2019 To 08.02.2019

RESOURCE PERSONS : **1. Mr.S.Lakshmana Raju**
Asst.Professor, Mechanical Department
Sri Sivani College of Engineering, Chilakapalem.
2. Mr.M.Venkata ramana
Associate Professor, Mechanical Department
Aditya Institute of Technology and Management, Tekkali.

NAME OF THE COORDINATOR : **Mr.P.BHARAT KUMAR**
Asst.Professor ,Department of Mechanical Engineering.
Sri Venkateswara College Of Engineering,Etcherla.
Contact No: 9493761887
E_Mail:mechhod.svcet@gmail.com

NUMBER OF THE STUDENTS ATTENDED : 80

VENUE : BLOCK – A : SEMINAR HALL.

Resource Person Picture:

Program Objectives:

- To introduce Renewable Energy Concept to participants from engineering institutions and industries.
- To make familiar with current state of art in the area of Renewable Energy.
- To Introduce Renewable Energy applications in domestic level.
- To discuss industrial applications of renewable energy. To discuss research areas in renewable energy applications.
- To discuss about the renewable projects and latest trends.

Learning Outcomes:

- upon completion of this course the student will be able to:
- The concept of renewable energy was very well understood by the participants.
- The participants are familiarized with the current scenario of the renewable energy. They were also introduced the use of Renewable energy at the domestic level efficiently. The experts had discussed various pros and cons of Renewable energy applications from industrial point of view.
- Explore strategies for promoting sustainable practices in energy production and consumption

This certificate course was very useful to students and their feedback is positive. The Management and Principal of Sri Venkateswara College of Engineering and Technology thanked the resource person and participants for making the programme Successful.

A Two week certificate Program on
" NANO TECHNOLOGY FOR MECHANICAL ENGINEERS"

16-07-2018 to 27-07-2018

Program Schedule

Academic Year:2018-19

S.No	Date	Topics to be Covered	Name of The Resource Person
1	16/07/2018	Understanding Nanotechnology Principles	Mr.K.PREMA KUMAR, Associate Professor, Sri Sivani College of Engineering , Chilakapalem
2	17/07/2018	Significance of Nanotechnology in mechanical engineering	Mr.K.PREMA KUMAR, Associate Professor, Sri Sivani College of Engineering , Chilakapalem
3	18/07/2018	Exploring Nano materials and their unique properties	Mr.K.PREMA KUMAR, Associate Professor, Sri Sivani College of Engineering , Chilakapalem
4	19/07/2018	Applications of nano materials in engineering	Mr.K.PREMA KUMAR, Associate Professor, Sri Sivani College of Engineering , Chilakapalem
5	20/07/2018	Nanoscale Mechanical Behavior of Materials	Mr.K.PREMA KUMAR, Associate Professor, Sri Sivani College of Engineering , Chilakapalem
6	23/07/2018	Implications for mechanical engineering	Mr.K.PREMA KUMAR, Associate Professor, Sri Sivani College of Engineering , Chilakapalem
7	24/07/2018	Nano scale Experiment Demonstrations Methods for Nanoscale Fabrication	Mr.G.MAHENDRANADH, Asst.Professor, Mechanical Dept, Sri Venkateswara College of Engineering & Technology, Etcherla
8	25/07/2018	Practical applications of Nanotechnology	Mr.G.MAHENDRANADH, Asst.Professor, Mechanical Dept, Sri Venkateswara College of Engineering & Technology, Etcherla
9	26/07/2018	Impact of Nanotechnology on Mechanical Systems	Mr.G.MAHENDRANADH, Asst.Professor, Mechanical Dept, Sri Venkateswara College of Engineering & Technology, Etcherla
10	27/07/2018	Industry Trends in Nanotechnology	Mr.G.MAHENDRANADH, Asst.Professor, Mechanical Dept, Sri Venkateswara College of Engineering & Technology, Etcherla

ABOUT THE PROGRAM

A two-week certificate program on “NANO TECHNOLOGY FOR MECHANICAL ENGINEERS” typically aims to provide participants with a comprehensive understanding On Explore Nanomaterials and Their Properties Explore the mechanical behavior of materials at the nanoscale. Comprehend the implications of Nano mechanics in mechanical engineering.

Objective :

To provide students with a profound understanding of nanotechnology and its applications in the field of mechanical engineering. To foster knowledge, skills, and an innovative mindset that will empower students to navigate and contribute to the rapidly evolving landscape where nanotechnology intersects with mechanical engineering.

Expected Outcome:

Upon completion of this course the student will be able to Grasp Fundamentals of Nanotechnology, Explore Nanomaterials and Their Properties, Explore the mechanical behavior of materials at the nano scale. Comprehend the implications of nano mechanics in mechanical engineering. Master Nanofabrication Techniques Analyze how nanotechnology is transforming mechanical systems, components, and design. Evaluate the practical applications of nanotechnology in mechanical engineering.

www.svcet.info

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUK, Kakinada. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE DEPARTMENT:

Mechanical Engineering is a field that utilizes science, technology, and problem-solving skills to design, construct, and maintain products. It is a challenging yet fascinating and fulfilling area of study. Founded in 2008, the Department of Mechanical Engineering aims to deliver high-quality technical education in Mechanical Engineering with an initial intake of 120 students. Affiliated with Jawaharlal Nehru Technological University, Kakinada and approved by AICTE, the department offers various courses that students from other departments can choose as electives. The curriculum is designed to elevate the college to the standards of advanced institutions. The department is dedicated to enhancing Industry-Institute Interaction in academics and research, as well as developing infrastructure to meet industry requirements.

DEPARTMENT VISION:

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

DEPARTMENT MISSION:

- To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
- To introduce professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable graduates

Resource Person Picture:

Program Objectives:

- To provide students with a profound understanding of nanotechnology and its applications in the field of mechanical engineering.
- To foster knowledge, skills, and an innovative mindset that will empower students to navigate and contribute to the rapidly evolving landscape where nanotechnology intersects with mechanical engineering.

Learning Outcomes:

Upon completion of this course the student will be able to:

- Grasp Fundamentals of Nanotechnology
- Explore Nanomaterials and Their Properties
- Explore the mechanical behavior of materials at the nanoscale.
- Comprehend the implications of nano mechanics in mechanical engineering.
- Master Nanofabrication Techniques
- Analyze how nanotechnology is transforming mechanical systems, components, and design.
- Evaluate the practical applications of nanotechnology in mechanical engineering.

This certificate course was very useful to students and their feedback is positive. The Management and Dr.S.C.V. Ramana Murthy Naidu , Principal of Sri Venkateswara College of Engineering and Technology, thanked the resource person and participants for making the programme Successful

ABOUT THE PROGRAM

The cellular communication landscape is rapidly evolving with the advent of 5G and other emerging technologies. This program delves into the latest trends, innovations, and future directions in cellular communications, with a special focus on 5G technology. Participants will gain insights into the underlying principles, technological advancements, and practical applications that are shaping the future of wireless communication.

Objective :

The course can provide students with a solid foundation in both image processing and FPGA implementation, along with practical experience in integrating MATLAB with FPGA for real-world image recognition applications.

Expected Outcomes:

All the students who have participated in a two week workshop on **"EMERGING TECHNOLOGIES AND TRENDS IN CELLULAR COMMUNICATIONS INCLUDING 5G"** have felt free and realized the importance of research and very much enthusiastic to get them absorbed in research after completion of their studies.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, Etcherla was established in 2008 by **Vikas Educational Society** with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the- art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

The Electronics & communication Engineering Department of SVCET was established in 2014. The department is currently offering UG Program B.Tech in ECE and PG Program M.Tech in VLSI Design Engineering. The Electronics & communication Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500 Sq.m. They are supported by experienced and qualified faculty

DEPARTMENT VISION

- Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

DEPARTMENT MISSION

- To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.
- To inculcate professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable

The Department of Electronics and communication engineering organized a Two Week certificate program on "EMERGING TECHNOLOGIES AND TRENDS IN CELLULAR COMMUNICATIONS INCLUDING 5G" for B.Tech (ECE) Students. Recently, Cellular mobile communications have been improvised into several recognition trending techniques by using several principles which are discussed in this session. Totally 36 students participated in this training program and after the completion of the program the students able to understand the following objectives and learning outcomes

Course Objectives: The student will be able to

- 5G Fundamentals: Develop a solid grasp of the fundamental concepts, architectures, and key technologies that underpin 5G cellular networks.
- Emerging Trends: Explore emerging trends and technologies in the field of cellular communications beyond 5G, such as 6G, Internet of Things (IoT) connectivity, massive MIMO, network slicing, and edge computing.
- Spectrum Allocation and Regulations: Understand spectrum allocation policies, regulatory frameworks, and international standards governing the deployment and operation of cellular networks, with a focus on 5G spectrum bands.
- Network Architecture: Explore the architectural components and design principles of 5G networks, including radio access network (RAN) architecture, core network architecture, and virtualization techniques.
- Use Cases and Applications: Explore a variety of use cases and applications enabled by 5G technology, including enhanced mobile broadband (eMBB), ultra-reliable low-latency communication (URLLC), and massive machine-type communication (mMTC).

Course Outcomes (COs): At the end of the course, student will be able to

- Articulate 5G Concepts: Explain the fundamental concepts and principles of 5G cellular networks, including key technologies and architectural components.
- Analyze Spectrum Allocation: Analyze spectrum allocation policies and regulatory frameworks governing cellular communications, with a focus on 5G spectrum bands and international standards.
- Design 5G Network Architectures: Design scalable and efficient 5G network architectures, considering factors such as RAN deployment strategies, network slicing, and virtualization techniques.
- Implement Advanced Radio Technologies: Implement advanced radio technologies and techniques in 5G networks, such as beamforming, mmWave communication, and massive MIMO, to optimize network performance.
- Critically Evaluate Cellular Technologies: Critically evaluate the strengths, limitations, and trade-offs of different cellular technologies, including 5G, in addressing current and future communication challenges.

CIRCULAR

It is hereby informed to all the B.Tech Final Year ECE students, that the Department of ECE is conducting a Two week certificate Program on “**FIR & IIR FILTER DESIGNING TECHNIQUES USING MATLAB**” From 30/07/2018 to 10/08/2018. The students shall register their name with coordinator on or before 28/07/2018.

ABOUT THE PROGRAM

Filters are essential components in signal processing, used to extract or suppress specific parts of a signal. Finite Impulse Response (FIR) and Infinite Impulse Response (IIR) filters are two primary types of digital filters with distinct characteristics and applications. This program focuses on designing these filters using MATLAB, a powerful tool for numerical computation and visualization.

Objective :

This course can provide students with a comprehensive understanding of recent trends and advancements in wireless communications, along with practical skills in using MATLAB for analysis, simulation, and design in this domain

Expected Outcomes:

All the students who have participated in a two week workshop "**FIR & IIR FILTER DESIGNING TECHNIQUES USING MATLAB**" have felt free and realized the importance of research and very much enthusiastic to get them absorbed in research after completion of their studies.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, Etcherla was established in 2008 by **Vikas Educational Society** with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

The Electronics & communication Engineering Department of SVCET was established in 2014. The department is currently offering UG Program B.Tech in ECE and PG Program M.Tech in VLSI Design Engineering. The Electronics & communication Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500 Sq.m. They are supported by experienced and qualified faculty

DEPARTMENT VISION

- Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

DEPARTMENT MISSION

- To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.
- To inculcate professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable

The Department of Electronics and communication engineering organized a Two Week certificate program on “**FIR & IIR FILTER DESIGNING TECHNIQUES USING MATLAB**” for B.Tech (ECE) Students. Recently, image processing is broadly used and has been improvised into several trending applications which are discussed in this session. Totally 53 students will be well-prepared to apply their knowledge and skills in wireless implementation to various engineering domains and industries where signal processing plays a crucial role also understand the following objectives and learning outcomes.

Course Objectives: The student will be able to Understanding

- **MATLAB Proficiency:** Develop proficiency in using MATLAB for digital signal processing tasks, particularly in designing, analyzing, and implementing FIR and IIR filters.
- **Design Techniques:** Learn various design techniques for FIR and IIR filters, including windowing, frequency sampling, and optimization methods.
- **Filter Specifications:** Understand how to specify filter requirements such as passband ripple, stopband attenuation, transition bandwidth, and filter order.
- **Filter Design Tools:** Explore MATLAB's built-in filter design tools and functions, such as `fir1`, `firpm`, `firls`, `butter`, `cheby1`, `cheby2`, `ellip`, etc.
- **Performance Evaluation:** Learn methods for evaluating the performance of designed filters, including frequency response analysis, time-domain analysis, and stability assessment.
- **Implementation Considerations:** Understand practical considerations in implementing FIR and IIR filters, including quantization effects, coefficient quantization, and numerical stability.

Course Outcomes (COs): At the end of the course, student will be able to

- **Design FIR and IIR Filters:** Design digital filters to meet given specifications using appropriate design techniques and MATLAB tools.
- **Analyze Filter Performance:** Analyze the performance of designed filters in terms of frequency response, phase response, group delay, and impulse response characteristics.
- **Implement Filters in MATLAB:** Implement designed filters in MATLAB, considering practical implementation issues such as finite precision arithmetic and numerical stability.
- **Optimize Filter Designs:** Optimize filter designs to achieve desired performance while minimizing filter order or other design constraints.
- **Compare Different Design Techniques:** Compare and contrast different design techniques for FIR and IIR filters in terms of performance, computational complexity, and implementation considerations.
- **Apply Filters to Signal Processing Tasks:** Apply designed filters to real-world signal processing tasks such as noise reduction, signal enhancement, and signal analysis.

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUGV, Vizianagaram. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE CIVIL DEPARTMENT:

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500sq.m. They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

www.svcet.info

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

The design and drawing of composite bridges involve the use of composite materials, typically steel and concrete, to create efficient and durable bridge structures. Composite bridges offer several advantages over traditional bridge. **Material Selection:** Composite bridges.

Objective :

The objective of the design and drawing of composite bridges is to create safe, efficient, and durable bridge structures that effectively their intended purpose while minimizing environmental impact and maximizing cost-effectiveness. Here are the primary objectives

Outcome:

The outcomes of the design and drawing of composite bridges encompass several key aspects, each contributing to the successful realization of safe, efficient, and durable bridge structures. Here are the outcomes. **Safe and Reliable Structures:** The foremost outcome is the creation of bridges that are safe and reliable for all users, including vehicles, pedestrians, and cyclist.

ORGANIZING COMMITTEE:

1.Mr .N.Simhachalam.

Mrs D.Anitha ,

Assistant Professor,
Department of Civil Engineering, SVCET
Ph no: 9959537464

NUMBER OF THE STUDENTS ATTENDED: 110

VENUE : BLOCK – C : SEMINAR HALL & COMPUTER LAB - 3.

Objective : The objectives of reinforced earth and its applications are diverse, addressing various engineering challenges and project requirements. . **Cost Efficiency:** Reinforced earth aims to provide cost-effective solutions for civil engineering projects by utilizing locally available materials, simplifying construction techniques.

Outcome: The outcomes of using reinforced earth and its applications are diverse and beneficial, impacting various aspects of civil engineering projects and infrastructure development. Here are some key outcomes.

Resource Person:

This certificate course was very useful to students and their feedback is positive. The Management and Principal of Sri Venkateswara College of Engineering and Technology, thanked the resource person and participants for making the program successful.

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUGV, Vizianagaram. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE CIVIL DEPARTMENT:

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500sq.m. They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

The design and drawing of composite bridges involve the use of composite materials, typically steel and concrete, to create efficient and durable bridge structures. Composite bridges offer several advantages over traditional bridge. **Material Selection:** Composite bridges.

Objective :

The objective of the design and drawing of composite bridges is to create safe, efficient, and durable bridge structures that effectively their intended purpose while minimizing environmental impact and maximizing cost-effectiveness. Here are the primary objectives

Outcome:

The outcomes of the design and drawing of composite bridges encompass several key aspects, each contributing to the successful realization of safe, efficient, and durable bridge structures. Here are the outcomes. **Safe and Reliable Structures:** The foremost outcome is the creation of bridges that are safe and reliable for all users, including vehicles, pedestrians, and cyclist.

Mrs S.Swetha ,

Assistant Professor,

Department of Civil Engineering, SVCET

Ph no: 7730827908-

NUMBER OF THE STUDENTS ATTENDED: 110

VENUE : BLOCK – C : SEMINAR HALL & COMPUTER LAB - 3.

About The Program:

Foundation engineering is a branch of civil engineering that focuses on the design and construction of foundations for structures. Foundations are critical elements of any structure as they transfer the load from the building to the underlying soil

Objective :Safety: The foremost objective of foundation engineering is to ensure the safety of structures, occupant. **Stability:** Foundation engineers aim to provide stable foundations that resist settlement, heave, tilting, or sliding under the applied loads.

Outcome: The outcomes of foundation engineering are multifaceted and directly impact the safety, stability, and longevity of structures. Here are the key outcomes. **Safe Structures**
Structural Stability: Proper foundation design and construction lead to structurally stable buildings that resist settlement, tilting, or collapse ensures the long-term stability of the building.

Resource Person:

This certificate course was very useful to students and their feedback is positive. The Management and Principal of Sri Venkateswara College of Engineering and Technology, thanked the resource persons and participants for making the programme Successful.

Profile of SVCET

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION:

M1) To facilitate and promote excellent learning through knowledge dissemination and training.

M2) To promote conducive ambience of learning, growth & professionalism in both students and employees.

M3) To inculcate respect for all and to take care of every one and allow them to manifest their highest potential through the tasks they do.

**About Department of
MBA**

The MBA Department of SVCET was established in 2009. The department offers post graduate programme in MBA (Master of Business Administration) with specializations HR, Finance, Marketing under affiliated to JNTU, Kakinada.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students everyday two hours are dedicated for seminars, team assignments, group discussions and various business and economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training programme on communication skills, presentation skills and interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

Objective of this Program

The main objective of this Program is to provide an opportunity for students regarding as follows:

1. To build foundation for money management and equity market.
2. To develop basic understanding of mutual funds, capital and derivative market.
3. To develop business acumen and entrepreneurial skills for financial markets

Profile of SVCET

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION:

M1) To facilitate and promote excellent learning through knowledge dissemination and training.

M2) To promote conducive ambience of learning, growth & professionalism in both students and employees.

M3) To inculcate respect for all and to take care of every one and allow them to manifest their highest potential through the tasks they do.

**About Department of
MBA**

The MBA Department of SVCET was established in 2009. The department offers post graduate programme in MBA (Master of Business Administration) with specializations HR, Finance, Marketing under affiliated to JNTU, Kakinada.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students everyday two hours are dedicated for seminars, team assignments, group discussions and various business and economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training programme on communication skills, presentation skills and interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

Objective of this Program

The main objective of this Program is to provide an opportunity for students regarding as follows:

1. To develop practical skills in advertising through contacting different bureaus.
2. To study how to help businesses and organisations raise awareness, self products and services and create dynamic brands.
3. To know must not reap profits but to justify its earnings through providing customer satisfaction.
