About the Institution

Sri Venkateswara College of Engineering & Technology, etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt.

About Department

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B. Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

.They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

PROGRAM REPORT

Name of the Event:

One Week F.D.P on “Recent Advances in Transportation Engineering (RATE)”.

Date: 13-06-2022 to 18-06-2022.

Resource Person:

1. **Dr K.V.R Ravi Shankar**, Assistant Professor,
Department of Civil Engineering,
National Institute of Technology, Warangal
2. **Mr. N.V.L.N Pavan Kumar**, Assistant Professor,
Department of Civil Engineering,
Sri Venkateswara College of Engineering and Technology, Etcherla.

Name of co-ordinator:

Mr. V. Udaya Bhanu

Assistant Professor

Number of Faculty attended : 20

Venue: Auditorium, Block - C.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on “Recent Advances in Transportation Engineering (RATE)”, for the faculty members from various institutions. By the Resource Persons the highlighted following points are as follows.

Objectives:

- To learn the various challenges during the fog for the traffic parameters in the Indian Road Traffic Conditions.
- To learn the different challenges for deciding the Capacity and Level of Service concepts for the Indian road Traffic Conditions.
- To identify and learn the different concepts of the traffic performance of the toll plazas with the help of a case study.
- To acquire the knowledge regarding Passenger Car Equivalency for Multilane Roundabouts Under Mixed Traffic Conditions with the help of a Case Study.

4

Outcome of the Program:

- The faculty has learned the various challenges to be faced during the fog for the traffic parameters in the Indian Road Traffic Conditions.
- The faculty has learned the different challenges to be faced for deciding the Capacity and Level of Service concepts for the Indian road Traffic Conditions.
- The faculty has learned the different concepts of the traffic performance of the toll plazas with the help of a case study.
- The faculty has acquired the knowledge regarding Passenger Car Equivalency for Multilane Roundabouts Under Mixed Traffic Conditions with the help of a Case Study.

About the Institution

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate programs in EEE, M-TECH (Master of Technology) with specialization power electronics, Control Systems

It has an exclusive departmental library with reference books, in order to develop the innate skills of students everyday two hours are dedicated for seminars, team assignments, group discussions and various business and electrical related activities. Students are encouraged to do regular case studies enabling them to understand the electrical related activities.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training program on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. a series of personality development programs are being conducted to encourage students to improve electrical skills.

Profile of SVCET

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

VISION:

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

MISSION:

M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.

M2. To inculcate professional and ethical values related to industry, society and environment.

M3. To interact with industries, to meet their requirements through employable graduates

**About Department of
Electronics & Communication**

The Electronics & communication Engineering Department of SVCET was established in 2008. The department is currently offering UG Program B.Tech in ECE and PG Program MTech in VLSI Design.

The Electronics & communication Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of ECE Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. are from R&B, RWS, Irrigation etc..

Objective of this Program

The main objective of this Program is to provide an opportunity for faculty, Research scholars and other ECE Engineering community. The program will cover essential topics including algorithm design, architecture development, and design methodology. Its vision is to expand knowledge and technology in specialized areas of advanced electronics through research, training, discussions, and brainstorming sessions. It seeks to foster the development of future leaders and

Sri Venkateswara College of Engineering and Technology, Department of **Electronics & Communication** Engineering has organized a One Week F.D.P on “Challenges and Advances in VLSI Design for Signal Processing and AI/ML Applications” for the faculty members from various institutions By the Resource Persons from Various Autonomous Colleges.

SRI VENKATESWARA COLLEGE OF ENGINEERING & TECHNOLOGY

ISO 9001:2015 Certified

Approved by AICTE, New Delhi, Affiliated to JNTUGV, Vizianagaram

Office : +91 9705576693 , email: principal_svcet@yahoo.com, website: www.svcet.info

Objectives:

- This Faculty Development Program (FDP) aims to cater to young faculty members in engineering colleges and research scholars, acquainting them with the latest trends and challenges in VLSI Design/Technology for DSP and AI/ML applications.
- The program will cover essential topics including algorithm design, architecture development, and design methodology. Its vision is to expand knowledge and technology in specialized areas of advanced electronics through research, training, discussions, and brainstorming sessions. It seeks to foster the development of future leaders and innovators among young faculty members, scientists, students, and researchers.

Outcome of the Program:

The Faculty Development Program (FDP) on VLSI Design for Signal Processing and AI/ML Applications aims to equip participants with advanced knowledge and practical skills in VLSI design tailored for signal processing and AI/ML tasks. Through the program, participants will gain expertise in applying cutting-edge techniques, algorithms, and tools, fostering a culture of research and innovation. The outcomes include enhanced curriculum development, industry collaboration, professional growth, and institutional impact, ultimately addressing industry needs and contributing to the advancement of knowledge and innovation in the field.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

ABOUT PROGRAM

Eminent Resource persons have expressed categorically the importance of **FUELS FOR ENERGY**. All attendees were quite impressed and inspired by the seminar. They exhibit their curiosity and acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is to improve site characterization enhanced foundation design. Fuels primary purpose is to provide energy, and its calorific value is important. Fuels are essential commodities for every day activities, such as providing most of people's electric power and making transportation possible.

OUTCOMES OF THE PROGRAM

The main outcomes of the FDP is known as about practical outcomes of fuels for energy, Fuels are essential commodities for every day activities.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state of the art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem-solving skills will acquire knowledge Of the design, implementation, and management of information systems of both hardware and Software.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and increased to 120 in the year of 2022. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

Objectives:

The objectives related to machine learning (ML) and deep learning (DL) trends and challenges are multifaceted, encompassing both the advancement of the field and addressing the hurdles that arise with its growth.

Here are some key objectives

- i. Advancing AI Capabilities
- ii. Automation and Efficiency
- iii. Personalization and Recommendation Systems
- iv. Healthcare Innovations

Expected Outcomes: One One Week Faculty Development Program on “Machine Learning and Deep Learning- Trends and Challenges “Overall, navigating these trends and challenges in ML and DL requires collaboration across academia, industry, and government, as well as a commitment to ethical, responsible, and sustainable AI development.

One Week Faculty Development Program on

"Machine Learning and Deep Learning- Trends and Challenges" 20.02.2023 to 25.02.2023

Time/Day	Mon	Tue	Wed	Thu	Fri
9:30 - 10:30AM	Inauguration Ceremony	Fundamentals of Machine Learning	Advanced Deep Learning Techniques	Natural Language Processing (NLP) and Text Analysis	Generative Adversarial Networks (GANs) and Reinforcement Learning
10:30 - 11:30AM	Introduction to Machine Learning and Deep Learning Trends	Understanding supervised, unsupervised, and reinforcement learning	Deep dive into neural networks architecture	Introduction to NLP and its challenges	Interactive activities, gamification, and social learning
11:30 - 11:40AM	TEA BREAK				
11:40 - 12:30PM	Definitions, differences, and applications	Exploring classification, regression, clustering algorithms	Convolutional Neural Networks (CNNs) for image recognition	Tokenization, stemming, and lemmatization	Understanding GANs and their applications in image generation and manipulation
12:30 - 01:10PM	Overview of recent advancements, including reinforcement learning, generative models, and self-supervised learning	Implementing basic machine learning algorithms using scikit-learn	Recurrent Neural Networks (RNNs) and their applications in sequential data analysis	Hands-on session: Sentiment analysis with recurrent neural networks	Introduction to reinforcement learning concepts
1:10 - 02:10PM	LUNCH				
2:10 - 3:30PM	Discussion on data scarcity, interpretability, fairness, and ethical considerations	Discussion on current trends and challenges in supervised learning	Transfer learning and fine-tuning pre-trained models	Designing a blended learning lesson plan incorporating online	Feedback from Participants, Distribution of Certificates
3:30 - 3:40PM	TEA BREAK				
3:40 - 4:30PM	Exploring recent research papers and case studies on ML/DL trends and challenges	Practical Session on Fundamentals of Machine Learning	Practical Session on Advanced Deep Learning Techniques	offline activities Discussion on recent advancements in NLP and future directions	Certificates Distribution, Closing Remarks

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on "*Machine Learning and Deep Learning- Trends and Challenges*" for the faculty members from various institutions By the Resource Persons from NIT Warangal has highlighted following points.

Objectives:

The objectives related to machine learning (ML) and deep learning (DL) trends and challenges are multifaceted, encompassing both the advancement of the field and addressing the hurdles that arise with its growth. Here are some key objectives.

- i. Advancing AI Capabilities
- ii. Automation and Efficiency
- iii. Personalization and Recommendation Systems
- iv. Healthcare Innovations

VISION:

Emerge as a center excellence and eminence to produce globally competent professionals adorn with social values

MISSION:

Impart a perfect blend of value based, industry relevant, quality education towards employable graduates.

Create facility to become technically competent, communicative and ethically upright.

Objective :

The objective of the program is

1. To ensure overall development of the learner to make oneself reliant and a responsible member of society
2. To create well-rounded individuals.
3. To establish the relationship between for quality education and soft skill endorsement leading to development of learners.

Outcomes of the Program:-

The Faculty Development Program (FDP) on Quality Education Delivery Through Advanced Presentation Soft Skills.

Developing these skills helps children learn to express their ideas clearly and nurture their ideas clearly and nurture their creativity. Presentation skills help pave the way to becoming a confident learner.

Sri Venkateswara College of Engineering and Technology, Dept. of Basic Science & Humanities has organized a One Week FDP on "QUALITY EDUCATION DELIVERY THROUGH ADVANCED PRESENTATION SOFT SKILLS" for the faculty members from various institutions. The Resource Person from Sri Sivani of Engineering College has highlighted following points.

Objectives:

The objective of the program is

1. To ensure overall development of the learner to make oneself reliant and a responsible member of society
2. To create well-rounded individuals.
3. To establish the relationship between for quality education and soft skill endorsement leading to development of learners.

Outcomes of the Program:-

Developing these skills helps children learn to express their ideas clearly and nurture their ideas clearly and nurture their creativity. Presentation skills help pave the way to becoming a confident learner.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem solving skills will acquire knowledge of the design, implementation, and management of information systems of both hardware and software. You will, further, learn to use computing and information technology to help solve existing and

Potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and increased to 120 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes. The department is working for the improvement of Industry –Institute Interaction in terms of academics & research and also for the development of infrastructure to match the needs of the industry.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates

ABOUT THE PROGRAM

.Objective: The objective of this training program is to provide administrative staff with hands-on experience and technical knowledge in assembling computer hardware and performing routine maintenance tasks. By the end of the program, participants will be able to identify and install various computer components, understand their functions, and carry out basic troubleshooting and maintenance procedures. This training aims to improve the efficiency and self-reliance of administrative teams in managing and maintaining computer systems, reducing the need for external technical support, and minimizing computer downtime within their organization.

Outcomes: By the end of the training program, participants will have gained practical skills and confidence in assembling computer hardware and performing essential maintenance tasks. They will be able to independently identify, install, and troubleshoot various computer components, leading to improved operational efficiency and reduced dependency on external technical support.
