Profile of SVCET

Sri Venkateswara College of Engineering & Technology ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values.

VISION:
Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:
M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

About Department of Civil Engineering

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500 sq.m .They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc..

Objective of this Program:

The main objective of this Program is to provide an opportunity for faculty, Research scholars and other Civil Engineering community to

i) **Understand developments & challenges in Infrastructure related areas.**

ii) **Create an understanding on current scenario in Transportation, structural, water resources & Environmental engineering and challenges ahead.**

Good morning sir and Greetings to you sir,

Sub: One week FDP on Infrastructure challenges and future scenario in Civil Engineering" , Draft copy of brochure attached
At the outset we are very thankful to you for accepting our request. I am attaching the brochure(draft) with a tentative schedule of day wise topics and time for your reference and confirmation. For creating seriousness in regularity and participation we have fixed an amount of 100/-(one hundred rupees only) per participant. The online session is planned in the Microsoft Teams app.

I request you to confirm and inform for any changes in timing and topic.

Thanking you sir,

yours faithfully,
chakravarthi.

About the Institution

Sri Venkateswara College of Engineering &Technology, etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in Srikakulamindustrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate programs in EEE(electrical and electronics of engineering)with specializations Power Electronics, Control Systems

It has an exclusive departmental library with reference books, in order to develop the innate skills of students everyday two hours are dedicated for seminars, team assignments, group discussions and various electrical &electronics related activities. Students are encouraged to do regular case studies enabling them to understand the electrical related activities

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training program on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve skills.

ABOUT THE PROGRAM

Who can attend:

The faculty members, PG students' research scholars, and working professionals from various technical institutes/industry can attend this FDP.

Objective of the program:

The objective of the program is to bring awareness in the internet of things to understand themselves knowledge in anlysis.

Outcome of the program:

All the participants in a one-week faculty development program on "Introduction to Internet of Things" realize the importance.

A ONE WEEK
FACULTYDEVELOPMENTPROGRAMME(FDP) ON
IOT & Embedded Applications
2nd to 6th February 2021
Organized by
DepartmentOfElectronics&Communication , SVCETEtcherla

About the FDP: The Faculty Development Programme (FDP) titled " **IOT & Embedded Applications** " aims to empower teachers and participants with the latest technology, skills, and insights in the realm of IoT and embedded systems. This FDP serves as a platform to unite researchers from academia and industry to delve into recent advancements and cutting-edge research areas within the Internet of Things, Embedded Systems, Intelligent Computing, Soft Computing, Optimization, Communication, and Hardware interfaces for smart sensors. Hands-on sessions during the FDP will delve into engineering principles and essential requirements for industry automation, offering practical experience and application. The program is designed to facilitate knowledge exchange and idea generation among experts and participants, with sessions dedicated to exploring technologies, techniques, and applications relevant to IoT. The primary objective of the FDP is to provide comprehensive understanding in Embedded Systems Design and its Applications for IoT. Given the rapid growth of IoT technologies and the increasing number of connected devices, the FDP will delve into detailed examinations of IoT systems, architecture, challenges, applications, protocols, and market demands. Additionally, programming and hands-on sessions will focus on utilizing microcontrollers, Arduino-Node MCU, and Raspberry-Pi for practical implementation

MajorCourseContents:

1. Introduction to IoT and Embedded Systems
2. Recent Trends in IoT Technologies
3. Hands-on Session: Setting Up Development Environments
4. IoT System Architecture and Design Principles.
5. IoT Communication Protocols and Standards
1. Security Challenges in IoT Systems
2. Hands-on Session: Implementing IoT Protocols
3. IoT Applications in Industry and Everyday Life
4. Challenges and Solutions in IoT Implementation

Sri Venkateswara College of Engineering &Technology, Etcherla, Srikakulam (Dist.) wasestablished in 2008 by VIKAS EDUCATIONALSOCIETY (1997) with an avowed objective ofaccelerating the growth of science and technology inthis industrially backward Srikakulam district.SVCET is accredited by NAAC in 2016. TheInstitution aims at providing state-of-the-arttechnologytothestudentcommunitytobroadenth eirhorizon for a better and prospective tomorrowendowed with highly qualified and seasoned facultyonitsrolls.SriVenkateswaraCollegeofEngin eering& Technology is committed to "Impart qualityeducation to the youth enable them the right attitude,professionalcompetencyandinculcateethic alvalues.The Institute is a recipient of Best Green Campusawardfor2017byGovt.ofA.P.in2018.

About Department of Electronics &Communication Engineering:

Advances in Communication Technology have been accelerating over the past few decades, driven by cutting-edge digital innovations. Modern communication systems have achieved three critical milestones: data rates exceeding 10 Gbps, connectivity supporting a device density of 1 ms million per square kilometer, and sub-millisecond latencies essential for future gigabit communication networks.

This FDP course will explore the latest trends in key research areas, including RF front-end antennas, core concepts of wireless radio, and optical communications with a major emphasis on design and simulation perspectives.

Department VISION

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research andservices.

Department MISSION

M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.

M2. To inculcate professional and ethical values related to industry, society and environment.

M3. To interact with industries, to meet their requirements through employable.

Sri Venkateswara College of Engineering and Technology, Department of **Electronics & Communication** Engineering has organized a One Week F.D.P on **" IOT & Embedded Applications "** for the faculty members from various institutions By the Resource Persons from Various Autonomous Colleges.

SRI VENKATESWARA COLLEGE OF ENGINEERING & TECHNOLOGY

Objective Of the Program :

- This Faculty Development Program (FDP) aims to cater to young faculty members in engineering colleges and research scholars, acquainting them with the latest trends and challenges in **IOT & Embedded Applications**

- The primary objective of the "Exploring IoT Innovations" Faculty Development Programme is to equip participants, primarily educators, with comprehensive knowledge, skills, and insights into the rapidly evolving field of Internet of Things (IoT) and embedded systems. The program aims to facilitate a deep understanding of IoT fundamentals, recent trends, challenges, and applications, while also providing practical experience through hands-on sessions. By bringing together academia and industry experts, the program seeks to foster collaboration, idea exchange, and innovation in IoT research and implementation.

Outcomes:

1. Comprehensive Understanding: Participants gain deep insights into IoT fundamentals and recent trends.

2. Practical Skills: Hands-on sessions provide experience in IoT programming and implementation.

3. Problem-Solving Ability: Participants develop critical thinking skills for addressing IoT challenges.

4. Industry Alignment: Insights into IoT applications and market trends align teaching with industry demands.

5. Networking: Opportunities for collaboration and idea exchange foster professional connections.

6. Professional Development: Participants receive certificates, enhancing credibility in academia and industry.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY(1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competancy and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18.The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

16th November to 20th November 2020
Program Schedule

Date & Time	10: 00 – 13:00	13:00 – 14:00	14:00 – 16:00
16-11-2020	Regestration/Inaguration	L U N C H B R E A K	Industrial 4.0 enabling technologies (KPK)
	Introduction and overview of industry 4.0 (KPK)		Industry 4.0 drives
17-11-2020	Industrial manufacturing travelogue (KPK)		Materials for sensing (KPK)
	Introduction to smart materials (KPK)		Advanced Smart materials (KPK)
18-11-2020	Materials for both sensing and actuation materials for actuation (KPK)		Case study (KPK)
			Introduction to nano technology (KPK)
19-11-2020	Nano particles influences on mechanical properties (GMN)		Importance of mgo Nano particles (GMN)
	Importance of Al2o3 nano particles (GMN)		Importance of Tio2 nano particles (GMN)
20-11-2020	Opportunities for optimization of manufacturing Process (GMN)		Non linear structural analysis of various components (GMN)
	Typical road blocks of industry 4.0 (GMN)		Compacting In industry 4.0 (GMN)

PROGRAM REPORT

It is to inform that a One Week Faculty Development Program on **"INDUSTRIAL REVOLUTION 4.0"**has been successfully conducted from 16-11-2020 to 20-11-2020 by Mechanical Engineering Department, Sri Venkateswara College of Engineering & Technology.

Resource persons :

1.Mr.K.PREMA KUMAR,
Associate Professor
Sri Sivani College of Engineering,CHILAKAPALEM

2.Mr.G.MAHENDRANADH,
Asst.Professor
Mechanical Department, SVCET

ABOUT PROGRAM

Eminent Resoursepersond have expressed categorically the importance of **INDUSTRIAL REVOLUTION 4.0,** All attendies were quite impressed and inspired by the seminar. They exhibit their curiosityand acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is In essence, the Fourth Industrial Revolution is the trend towards automation and data exchange in manufacturing technologies and processes which include cyber-physical systems (CPS), IoT, industrial internet of things, cloud computing, cognitive computing, and artificial intelligence.

It enhance productivity, efficiency, and flexibility while enabling more intelligent decision-making and customization in manufacturing and supply chain operations.

OUTCOMES OF THE PROGRAM

Faculty members who participated in the program were enlightened regarding the latest trend and technologies prevailing in the Automation. This lead to increased production and efficiency, lower prices, more goods, improved wages, and migration from rural areas to urban areas.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state of the art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem-solving skills will acquire knowledge Of the design, implementation, and management of information systems of both hardware and Software.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable gradates.
ABOUT THE PROGRAM

Objectives: The objective of utilizing Amazon Web Services (AWS) in cloud computing is to leverage its vast array of services and infrastructure to build scalable, reliable, and cost-effective solutions. Here are some key objectives when using AWS for cloud computing.

Expected Outcomes: One Week Faculty Development Program on "Cloud Computing with AWS" the expected output of using AWS for cloud computing is to achieve a scalable, reliable, secure, and cost-effective infrastructure that enables agility, innovation, and business growth.

One Week Faculty Development Program on

"Cloud Computing with AWS" 23.11.2020 to 28.11.2020

Time/Day	Mon	Tue	Wed	Thu	Fri
9:30 - 10:30AM	Inauguration Ceremony	Compute Services	Storage Services	Networking Services	Database Services
10.30 - 11:30AM	Introduction to Cloud Computing and AWS	Amazon EC2 (Elastic Compute Cloud): Understanding virtual servers, instance types, and pricing	Overview of object storage, buckets, and objects	Understanding networking in AWS, subnets, route tables	Managed relational databases in the cloud
11:30 - 11:40AM	TEA BRAEK				
11:40 - 12:30PM	What is cloud computing? Benefits and challenges	Practical Session on Compute Services,	Creating and managing S3 buckets, uploading and accessing objects	Creating a VPC, subnets, and launching instances in a private network	Setting up and connecting to an RDS instance (MySQL, PostgreSQL, or Amazon Aurora)
12:30 - 01:10PM	Introduction to Amazon Web Services (AWS): Services offered, global infrastructure, and pricing models	Step-by-step guide to launching and accessing an EC2 instance,	Practical Session on Storage Service	Practical Session on Creating a VPC	Overview of NoSQL database service, key-value and document data models,
1:10 - 02:10PM	LUNCH				
2:10 - 3:30PM	Step-by-step guide to creating an AWS account	Introduction to container orchestration on AWS	Introduction to block storage and EBS volumes	Introduction to DNS web service, domain registration, and routing policies	Creating and querying a DynamoDB table
3:30 - 3:40PM	TEA BRAEK				
3:40 - 4:30PM	Navigating the console, understanding regions and availability zones	Deploying a Docker container on ECS	Overview of scalable file storage in the cloud	Connecting your on-premises network to AWS securely	Certificates Distribution, Closing Remarks

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E,& C.S.E,PG Programs, M.B.A, & M.Tech like PE,CS,TE,VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 12 years. The department has always been on a progressive path, thanks to the experienced and dedicated
Faculty members who have a strong commitment towards providing quality engineering education.

(Approved by AICTE, New Delhi and Affiliated to JNTUK, Kakinada,

VISION:

Emerge as a center excellence and eminence to produce globally competent professionals adorn with social values

MISSION:

Impart a perfect blend of value based, industry relevant, quality education towards employable graduates.
Create facility to become technically competent, communicative and ethically upright.

Objective :

This FDP will illuminate the Faculty in the concepts of calculus.
- To enlighten the learners in the concept of differential equations and multivariable calculus.
- To equip the students with standard concepts and tools at an intermediate to advanced level
- Mathematics to develop the confidence and ability among the students to handle various real world problems and their applications

Outcome:

- Solve the differential equations related to various engineering fields
- Familiarize with functions of several variables which is useful in optimization
- Apply double integration techniques in evaluating areas bounded by region
- Faculty will also learn important tools of calculus in higher dimensions. Students will become● familiar with 2- dimensional and 3-dimensional coordinate systems

Sri Venkateswara College of Engineering and Technology, Basic Science & Humanities Department has organized a One Week FDP on "In Applications of Mathematics in Engineering Studies"for the faculty members from various institutions. The Resource Person from Vishnu Institute of Technology and Management, Bhimavaram,.has highlighted following points

Objectives:

The objective of the program is
1. To promote sustainable development that meets the needs of the present without compromising the ability of future
2. To protect and conserve wildlife and biodiversity and also to create more awareness of the multiple environmental problems

Outcomes of the Program:-

Prevent and control degradation of land, water, vegetation and air. Conserve and enhance, natural and man-made heritage. Raise awareness and understanding of the link between environment and development

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the- art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem solving skills will acquire knowledge of the design, implementation, and management of information systems of both hardware and software. You will, further, learn to use computing and information technology to help solve existing and

potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area of Electrical and Electronics Engineering with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes. The department is working for the improvement of Industry –Institute Interaction in terms of academics & research and also for the development of infrastructure to match the needs of the industry.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable gradates
ABOUT THE PROGRAM

.**Objective:** The objective of this one-day administrative training program is to equip participants with the necessary skills and knowledge to effectively utilize Microsoft Excel and spreadsheet software for administrative tasks. Through hands-on training and practical exercises, participants will learn how to leverage Excel's features and functionalities to streamline data management, and create insightful spreadsheets that support informed decision-making and enhance productivity in their administrative roles.

Outcome: Proficiency in using Microsoft Excel and spreadsheet software for administrative tasks, Enhanced data management, and visualization skills, Ability to create professional-looking spreadsheets, charts, and graphs to communicate information effectively, Understanding of advanced Excel features and techniques for performing complex data analysis and automation, Increased productivity and efficiency in performing administrative tasks using Excel.
