About the Institution

Sri Venkateswara College of Engineering & Technology, etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt.

About Department

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

.They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific andtechnical knowledge and excellent engineering skills forprofessionalpractice,employment,advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

Number of Faculty attended : 31

Venue: Seminar Hall, Block - A.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on *"Recent Advances in Remote Sensing and GIS for Civil Engineering"*, for the faculty members from various institutions. By the Resource Persons the highlighted following points are as follows.

Objectives:

- To learn the various challenges in the Multi and Hyperspectral Imagery in the view of Civil Engineering Aspects.
- To learn the different challenges regarding the LiDAR and its Applications.
- To identify and learn the different Aspects of landscape evaluation and its applications.
- To acquire the knowledge regarding Landuse and Landcover and chemical features of the soil and its surface.

About the Institution

Sri Venkateswara College of Engineering &Technology,etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in Srikakulamindustrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate programs in M-TECH (Master of Technology) with specializations Power Electronics, Control Systems

It has an exclusive departmental library with reference books, in order to develop the skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various Electrical related activities. Students are encouraged to do regular case studies enabling them to understand the Electrical related activities.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training program on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students.
A series of personality development programs are being conducted to encourage students to improve electrical skills.

ABOUT THE PROGRAM

Who can attend:

The faculty members, PG students' research scholars, and working professionals from various technical institutes/industry can attend this FDP.

Objective of the program:

The objective of the program is to bring awareness in the power systems technology to understand themselves knowledge in innovation.

Outcome of the program:

All the participants in a one-week faculty developmentprogram on "POWER SYSTEMSEVOLUTION AND TECHNOLOGY TRENDS" realizethe importance.

A ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP) ON

Opportunities and Challenges in next generation Semiconductor Devices

5th to 9th August 2019

Organized by

Electronics & Communication Department , SVCET Etcherla

About the FDP: The FDP on "Opportunities and Challenges in Next-Generation Semiconductor Devices" aims to provide participants with a comprehensive understanding of the emerging trends, opportunities, and challenges in the field of semiconductor devices. This program is designed for faculty members, researchers, and industry professionals who are interested in advancing their knowledge and contributing to the development of cutting-edge semiconductor technologies.

Major Course Contents:

1. Emerging Semiconductor Materials:
Wide-Bandgap Semiconductors: Silicon Carbide (SiC)
Gallium Nitride (GaN),Two-Dimensional (2D) Materials :Graphene, Molybdenum Disulfide (MoS2)
Organic Semiconductors and Perovskites:
Organic thin-film transistors, Hybrid organic-inorganic perovskites

2. Advanced Device Architectures:
FinFETs and Gate-All-Around (GAA) FETs:
Design principles ,Performance benefits over traditional MOSFETs, Tunnel FETs (TFETs) and Negative Capacitance FETs (NCFETs):
Mechanisms and advantages for low-power applications, Quantum Dots and Single-Electron Transistors:Quantum confinement effects
Applications in quantum computing and sensing

3. Fabrication and Processing Techniques:
Advanced Lithography: Extreme Ultraviolet (EUV) Lithography, Directed Self-Assembly (DSA)
Atomic Layer Deposition (ALD) and Molecular Beam Epitaxy (MBE):Techniques for precise thin-film deposition Challenges in Nanoscale Fabrication:
Overcoming limitations in resolution and alignment.
4. Applications and Industry Trends:
Internet of Things (IoT) and Wearable Electronics:
Low-power devices
Flexible and stretchable electronics
Automotive and Power Electronics:
 High-efficiency power devices
Applications in electric vehicles (EVs)
Artificial Intelligence (AI) and Machine Learning

Applications:
5. Challenges in Semiconductor Scaling:
 Overcoming the Limits of Moore's Law:
 Innovations in device architecture and materials
 Heat Dissipation and Power Consumption:
 Advanced cooling techniques
 Low-power design strategies
Integrating Heterogeneous Materials and Devices:
 Challenges and solutions for multi-material integration

The programme will be conducted by the Resource person from AITAM Tekkali, Academicians in the concerned field are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course.

Registration Fee Particulars:

| Faculty and Research Scholars | Rs.1000/- |
| Industry Participants | Rs.2000/- |

Online Transfer Details

Participants need to pay the Registration Fee Online using the following details:-

BANK NAME:BANK OF INDIA
A/C.NO:868625110000003
IFSC CODE:BKID0005665

How to apply:
Participants are required to fill the registration form and send the scanned copy to the Convenor through mail.

Selection Criteria:
Selection will be done based on first-come-first-serve basis to a maximum number of 30 (sixty). Additionally, 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail. .

Important Dates:

Last date (Application)	01.08.2019

A ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP) ON

Opportunities and Challenges in next generation Semiconductor Devices

5th to 9th August 2019

Organized by

Electronics & Communication Department , SVCET Etcherla

About SVCET:

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department of Electronics &Communication Engineering:

Advances in Communication Technology have been accelerating over the past few decades, driven by cutting-edge digital innovations. Modern communication systems have achieved three critical milestones: data rates exceeding 10 Gbps, connectivity supporting a device density of 1 million per square kilometer, and sub-millisecond latencies essential for future gigabit communication networks. This FDP course will explore the latest trends in key research areas, including RF front-end antennas, core concepts of wireless radio, and optical communications with a major emphasis on design and simulation perspectives.

Department VISION

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

Department MISSION

M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.

M2. To inculcate professional and ethical values related to industry, society and environment.

M3. To interact with industries, to meet their requirements through employable

Number of Faculty attended : 34
Venue: Seminar Hall, Block - A.

Sri Venkateswara College of Engineering and Technology, Department of **Electronics & Communication** Engineering has organized a One Week F.D.P on **"Opportunities and Challenges in next generation Semiconductor Devices "**for the faculty members from various institutions By the Resource Persons from Various Autonomous Colleges.

SRI VENKATESWARA COLLEGE OF ENGINEERING & TECHNOLOGY
Accredited by NAAC with 'A' Grade
(Approved by AICTE, NewDelhi; Affiliated to JNTUK, Kakinada; G.O.Ms.No. 101, Dt. 09-07-08)

Objectives of the Program:

The FDP on "Opportunities and Challenges in Next-Generation Semiconductor Devices" aims to enhance participants' understanding of advanced semiconductor technologies, identify emerging research opportunities, and address key technical and practical challenges in the field. The program promotes industry-academia collaboration by facilitating interactions between academic researchers and industry professionals, providing hands-on training to develop practical skills in device fabrication, simulation, and characterization. It fosters a collaborative research environment, encourages sustainable practices in semiconductor technology, and prepares participants for future trends and innovations. Additionally, the FDP aims to improve pedagogical skills for teaching advanced semiconductor concepts and offers networking opportunities with leading experts to support ongoing learning and professional growth.

Outcome of the Program : The FDP on "Opportunities and Challenges in Next-Generation Semiconductor Devices" successfully achieved its objectives, providing participants with valuable knowledge, skills, and networking opportunities. The program was well-received, and participants are now better equipped to contribute to advancements in semiconductor technology. Future programs may incorporate more extended hands-on sessions and focus on specific emerging areas to further enhance the learning experience.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY(1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competancy and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18.The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

PROGRAM REPORT

It is to inform that the 6 day Faculty Development Program on **"HVAC SYSTEMS DESIGN & OPTIMIZATION"**has been successfully conducted from 15-07-2019 to 19-07-2019 by Mechanical Engineering Department, Sri Venkateswara College of Engineering & Technology.

Resource persons :

1. Dr.J.BALA BHASKARA RAO,
Professor, Dept of MECH
Sri Sivani College Of Engineering, Chilakapalem.

2.Mr.G.HAREESH,
Asst.Professor, Dept of Mechanical
Sri Venkateswara College of Engineering & Technology,Etcherla

ABOUT PROGRAM

Eminent Resourse persond have expressed categorically the importance of **HVAC SystemsDesign & Optimization,** All attendies were quite impressed and inspired by the seminar. They exhibit their curiosityand acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is is to create comfortable, safe, and energy-efficient indoor environments. HVAC engineers work on projects to select heating and cooling equipment, ductwork design, ventilation systems, and control systems.

The main purposes of a Heating, Ventilation and Air-Conditioning (HVAC) system are to help maintain good indoor air quality (IAQ) through adequate ventilation with filtration and provide thermal comfort.

OUTCOMES OF THE PROGRAM

Faculty members who participated in the program were enlightened regarding the latest trend and technologies prevailing of HVAC Systems & its Advantages.The design quality directly affects the energy-saving and carbon-reduction effects of HVAC systems.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state of the art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem-solving skills will acquire knowledge Of the design, implementation, and management of information systems of both hardware and Software.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding   area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinadaapproved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable gradates.
ABOUT THE PROGRAM

Objectives: The objective of deep learning is to develop algorithms and models that can learn and extract meaningful patterns and representations from complex data. These algorithms are designed to mimic the structure and function of the human brain's neural networks, hence the term "deep" learning, as it involves multiple layers of interconnected nodes.

Expected Outcomes: One Week Faculty Development Program on Program on "Deep Learning" The specific output of a deep learning model depends on the architecture of the model, the type of task being performed, and the nature of the data being processed. However, in general, deep learning models are capable of producing a wide range of outputs across various domains and applications industry, society and environment. To interact with industries, to meet their requirements through employable gradates.

One Week Faculty Development Program on

"Deep Learning" 14.10.2019 to 19.10.2019

Time/Day	Mon	Tue	Wed	Thu	Fri
9:30 - 10:30AM	Inauguration Ceremony	Fundamentals of Neural Network	Recurrent Neural Networks (RNNs) and Long Short-Term Memory (LSTM) Netwoks	Generative Adversarial Networks (GANs)	Reinforcement Learning and Deep Q-Networks (DQN)
10.30 - 11:30AM	Introduction to Deep Learning	Fundamentals of feedforward neural networks	Introduction to RNNs: Concepts and applications in sequential data processing	Understanding the adversarial learning framework	Markov Decision Processes, policies, rewards
11:30 - 11:40AM	TEA BRAEK				
11:40 - 12:30PM	Overview of deep learning concepts and history	Basics and applications in image recognition	LSTM Networks: Understanding the architecture and its advantages	Application of GANS:Image generation, style transfer	Practical Session on DQN
12:30 - 01:10PM	Introduction to neural networks and their architecture	Implementing a CNN for image classification	Building an LSTM network for sequential data analysis (e.g., time series forecasting, natural language processing)	Practical Session on GAN	Implementing a DQN for a simple game environment (e.g., OpenAI Gym)
1:10 - 02:10PM	LUNCH				
2:10 - 3:30PM	Understanding activation functions and loss functions	Fine-tuning and Transfer Learning: Leveraging pre-trained models for specific tasks	Bidirectional RNNs, attention mechanisms	Implementing a simple GAN for image generation	Using deep learning for value approximation
3:30 - 3:40PM	TEA BRAEK				
3:40 - 4:30PM	Setting up Python environment for deep learning with TensorFlow or PyTorch	Practical Session on Neural networks	Practical Session on RNN & LSTM	DCGANs, WGANs, conditional GANs	Certificates Distribution, Closing Remar7ks

Sri Venkateswara College of Engineering and Technology, Department of Computer Science and Engineering has organized a One Week F.D.P on "Deep Learning" for the faculty members from various institutions By the Resource Person from AITAM, Tekkali has highlighted following points.

Objectives:

The objective of deep learning is to develop algorithms and models that can learn and extract meaningful patterns and representations from complex data. These algorithms are designed to mimic the structure and function of the human brain's neural networks, hence the term "deep learning", as it involves multiple layers of interconnected nodes.

Expected Outcomes:

One Week Faculty Development Program on Program on "Deep Learning". The specific output of a deep learning model depends on the architecture of the model, the type of task being performed, and the nature of the data being processed. However, in general, deep learning models are capable of producing a wide range of outputs across various domains and applications industry, society and environment. To interact with industries, to meet their requirements through employable gradates.

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E,& C.S.E,PG Programs, M.B.A, & M.Tech like PE,CS,TE,VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 11 years. The department has always been on a progressive path, thanks to the experienced and dedicated
Faculty members who have a strong commitment towards providing quality engineering education.

VISION:

Emerge as a center excellence and eminence to produce globally competent professionals adorn with social values

MISSION:

Impart a perfect blend of value based, industry relevant, quality education towards employable graduates.
Create facility to become technically competent, communicative and ethically upright.

Objective :

This FDP will illuminate the Faculty in the concepts of calculus.
• To enlighten the learners in the concept of differential equations and multivariable calculus.
• To equip the students with standard concepts and tools at an intermediate to advanced level
• Mathematics to develop the confidence and ability among the students to handle various real world problems and their applications

Outcome:

• Solve the differential equations related to various engineering fields
• Familiarize with functions of several variables which is useful in optimization
• Apply double integration techniques in evaluating areas bounded by region
• Faculty will also learn important tools of calculus in higher dimensions. Students will become• familiar with 2- dimensional and 3-dimensional coordinate systems

Sri Venkateswara College of Engineering and Technology, Dept. of Basic Science & Humanities has organized a One Week FDP on "Curriculum Design, Pedagogy and Teaching Methodology" for the faculty members from various institutions. The Resource Person from Vishnu Institute of Technology, Bhimavaram has highlighted following points.
Objectives:

The objective of the program is

1. To develop skill, knowledge and understanding level of the learners.

2. The methodology provides a framework and guidelines for researchers to clearly define research Questions, hypotheses, and objectives.

3. The specific, measurable expectations that indicate what learners should be able to know or do as they work toward a curriculum goal.

Outcome of the program:

The Faculty Development Program (FDP) on Curriculum Design, Pedagogy and Teaching Methodology is dynamic field that continually evolves to meet the needs of learners in an ever changing world. Through the program, participants will gain knowledge, comprehension, application, Analysis, creating and evaluation. The outcomes include enhanced curriculum development, contextualization of knowledge, praxis and technique, critical thinking and research and communication.
