Number of Faculty attended : 30

Venue: Seminar Hall, Block - A.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on “*Water and Environmental Modelling Using MIKE, RS & GIS Applications*”, for the faculty members from various institutions. By the Resource Persons the highlighted following points are as follows.

Objectives:

- To learn the River Basin Management and Planning using MIKE HYDRO Basin
- To learn about the Aerosol and Air Quality Studies using the Remote Sensing Data.
- To learn about the Fluvial Morphological Modeling using MIKE 21C.
- To learn about the Hydrological Modelling for Flood Extent using MIKE FLOOD.

Outcome of the Program:

- The faculty has learned about the River Basin Management and Planning using MIKE HYDRO Basin
- The faculty has acquired knowledge about the Aerosol and Air Quality Studies using the Remote Sensing Data.
- The faculty has learned about the Modelling of Fluvial Morphological Modelling using MIKE 21C.
- The faculty has learned about the Hydrological Modelling for Flood Extent using MIKE FLOOD.

About the Institution

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in Srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate programs in EEE, M-TECH (Master of Technology) with specializations Power Electronics, Control Systems

It has an exclusive departmental library with reference books, in order to develop the skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various Electrical related activities. Students are encouraged to do regular case studies enabling them to understand the Electrical related activities.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve skills.

Vision: To be globally recognized center of excellence in Electrical and Electronics of Engineering, pioneering innovations that shape the future of technology and society.

Mission: Our mission is to provide transformative education, conducting cutting-edge research, and faster innovation in Electrical and Electronics Engineering to address global challenges and improve quality of life.

ABOUT THE PROGRAM**Who can attend:**

The faculty members, PG students' research scholars, and working professionals from various technical institutes/industry can attend this FDP.

Objective of the program:

The objective of the program is to bring awareness in the emerging electrical professionals to understand themselves knowledge in innovation.

Outcome of the program:

All the participants in a one-week faculty development program on "FUTURE TRENDS&ADVANCES IN ELECTRICAL ENGINEERING" realize the importance.

About SVCET College

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About the ECE Department

The Electronics & Communication Engineering Department of SVCET was established in 2008. The department is currently offering UG Program B.Tech in ECE and PG Program M.Tech in VLSI Design. The department has the state of art infrastructure with well equipped labs, software and computer center. The department has experienced and qualified faculty. The laboratory facilities are available in all subject areas of ECE. In addition to the regular curriculum, the department is offering add-on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body, industries and research projects.

Department Vision:

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

Department Vision:

M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.

M2. To inculcate professional and ethical values related to industry, society and environment.

M3. To interact with industries, to meet their requirements through employable graduates

About the FDP

Advances in Communication Technology have been accelerating over the past few decades, driven by cutting-edge digital innovations. Modern communication systems have achieved three critical milestones: data rates exceeding 10 Gbps, connectivity supporting a device density of 1 million per square kilometer, and sub-millisecond latencies essential for future gigabit communication networks. This FDP course will explore the latest trends in key research areas, including RF front-end antennas, core concepts of wireless radio, and optical communications with a major emphasis on design and simulation perspectives.

Contents of the FDP

- Designing and simulating digital communication systems
- Progress in error control strategies
- Designing and simulating antennas
- Reconfigurable RF/Microwave filters
- Physical layer perspectives on candidate technologies for 5G
- Designing and simulating non-orthogonal multiple access (NOMA)-based systems
- Radio-frequency integrated circuits (RFIC) for wireless communications
- Applying machine learning in communication systems
- An overview of wireless optical communication (WOC)

Who can attend

The faculty members, PG students, Research scholars, and working professionals from various technical institutes/industry can attend this FDP.

Objectives of the Program:

- The Faculty Development Program (FDP) on "Advances in Communication Technology" aimed to enhance participants' understanding of digital communication systems, error control strategies, antenna design and simulation, and reconfigurable RF/Microwave filters. It explored candidate technologies for 5G, NOMA-based systems, RFIC for wireless communications, and the application of machine learning in communication systems. Additionally, the program provided an overview of wireless optical communication (WOC) and its role in next-generation communication, equipping participants with both theoretical knowledge and practical skills to advance the field of communication technology.

Outcome of the Program: The Faculty Development Program (FDP) on "Advances in Communication Technology" successfully enhanced participants' knowledge and skills in digital communication systems, error control strategies, antenna design, reconfigurable RF/Microwave filters, and 5G technologies. It provided practical insights into NOMA systems, RFIC development, and machine learning applications in communication, along with a comprehensive understanding of wireless optical communication (WOC) and its role in next-generation networks. The program fostered networking and collaboration, encouraged research and development, and empowered faculty with the latest technological advancements for improved teaching and research.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

PROGRAM REPORT

It is to inform that a one week Faculty Development Program on “**ROBOTICS & AUTOMATION IN MECHANICAL ENGINEERING**” has been successfully conducted from 16-07-2018 to 20-07-2018 by Mechanical Engineering Department, Sri Venkateswara College of Engineering & Technology.

Resource persons :

1.Mr. M. VENKATA RAMANA

Professor, Mechanical Department
Aditya Institute of Technology and Management, Tekkali

2.Mr.P. SIVARAM

Asst.Professor, Mechanical Department
Sri Venkateswara College of Engineering & Technology

ABOUT PROGRAM

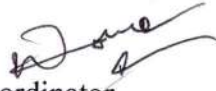

Eminent Resourcepersond have expressed categorically the importance of **ROBOTICS & AUTOMATION IN MECHANICAL ENGINEERING**, All attendies were quite impressed and inspired by the seminar. They exhibit their curiosityand acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP that involves the conception, design, manufacture and operation of robots. The objective of the robotics field is to create intelligent machines that can assist humans in a variety of ways.

OUTCOMES OF THE PROGRAM

The main outcomes of the FDP Robotic process automation streamlines workflows, which makes organizations more profitable, flexible, and responsive. It also increases employee satisfaction, engagement, and productivity by removing mundane tasks from their workdays.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state of the art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem-solving skills will acquire knowledge Of the design, implementation, and management of information systems of both hardware and Software.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable gradates.

ABOUT THE PROGRAM

Objectives: The objective of integrating AI and ML into biomedical engineering is to revolutionize healthcare delivery by improving diagnosis accuracy, treatment efficacy, patient outcomes, and operational efficiency, ultimately leading to better quality of care and advancements in medical science.

Expected Outcomes: One Week Faculty Development Program on “Artificial Intelligence and Machine Learning Applications in Bio Medical Engineering “the expected outputs of AI and ML applications in biomedical engineering include improved patient outcomes, more efficient healthcare delivery, accelerated medical discoveries, and a deeper understanding of biological processes, ultimately leading to advancements in medical science and improved quality of care.

One Week Faculty Development Program on

"Artificial Intelligence and Machine Learning Applications in Bio Medical Engineering" 20.08.2018 to 25.08.2018

Time/Day	Mon	Tue	Wed	Thu	Fri
9:30 - 10:30AM	Inauguration Ceremony	Medical Image Analysis	Predictive Modeling in Healthcare	Healthcare Data Mining and Text Analytics	Wearable Health Monitoring Devices and IoT
10.30 - 11:30AM	Introduction to Biomedical Engineering and AI	Fundamentals of medical imaging techniques: X-ray, MRI, CT scan, ultrasound	Overview of predictive modeling in healthcare: Predicting disease progression, diagnosis, treatment outcomes	Introduction to healthcare data sources: Electronic Health Records (EHR), medical literature, clinical trials data	Fitness trackers, smartwatches, medical sensors
11:30 - 11:40AM	TEA BREAK				
11:40 - 12:30PM	Introduction to Biomedical Engineering: Definition, scope, and significance	Introduction to medical image analysis using AI/ML techniques.	Introduction to classification and regression algorithms	Overview of data mining techniques in healthcare	Overview of Internet of Things (IoT) in healthcare
12:30 - 01:10PM	Overview of AI and ML: Concepts, types, and applications in healthcare	Image preprocessing and feature extraction for medical images	Building predictive models using supervised learning algorithms	Text mining and sentiment analysis of medical literature	Applications of AI/ML in analyzing data from wearable devices
01:10 - 02:10PM	LUNCH				
2:10 - 3:30PM	Key challenges and opportunities in applying AI/ML to biomedical problems	Segmentation, registration, and classification of medical images	Evaluation metrics for healthcare applications: Accuracy, sensitivity, specificity, ROC curves	Discussion on ethical considerations and privacy issues in healthcare data analytics	Feedback from Participants, Distribution of Certificates
3:30 - 3:40PM	TEA BREAK				
3:40 - 4:30PM	Examples of successful AI/ML applications in healthcare and biomedical engineering	Practical Session on Medical Image Analysis	Practical Session on Predictive Modeling in Healthcare	Practical Session on Healthcare Data Mining and Text Analytics	Certificates Distribution, Closing Remarks

Sri Venkateswara College of Engineering and Technology, Department of Computer Science and Engineering has organized a One Week F.D.P on “Artificial Intelligence and Machine Learning Applications in Bio Medical Engineering” for the faculty members from various institutions By the Resource Person from Sarada Institute of Science and Technology and Management, Ampolu, Srikakulam has highlighted following points.

Objectives:

This special issue “Artificial Intelligence and Machine Learning Applications in Bio Medical Engineering” tries to capture the scope of various applications of Machine Learning in the Bio Medical Engineering Field, with a special emphasis on the most representative machine learning Techniques.

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 10 years. The department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.

VISION:

Emergence as a center of excellence and eminence to produce globally competent professionals adorned with social values

MISSION:

Impart a perfect blend of value-based, industry-relevant, quality education towards employable graduates.

Create facility to become technically competent, communicative and ethically upright.

Objective :

The objective of the program is:

Imparting knowledge about an overview on wastewater generation from oil industry, waste hierarchy, existing treatment processes and relevant regulations. To discuss physico-chemical and biological treatment processes for industrial effluent. To provide insight into advanced treatment methods to improve wastewater recycling potential. To discuss case studies and identification of gaps and future prospects

Outcome:

The following topics will be addressed during the Faculty development program-

- Industrial effluent treatment Physical and chemical properties.
- Aerobic and anaerobic treatment of water. Sewage water treatment. Sludge management. Toxicity in industrial wastewater. Recent advanced waste water treatment. Case studies from various like tanning industry, sugar industry, bio-refinery, metal processing industry. www.ies.ipsacademy.org

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem solving skills will acquire knowledge of the design, implementation, and management of information systems of both hardware and software. You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study.
