7.3.1 INSTITUTIONAL DISTINCTIVENESS

Vision:

Our institution's vision is to emerge as a center of excellence and Eminence to produce globally competent professionals adorn with social values.

Mission:

Our mission is to impart a perfect blend of value based, industry relevant, and quality education towards employable graduates.

Create facility to become technically competent, communicative and ethically upright.

Sri Venkateswara College of Engineering and Technology (SVCET) have prioritized the following as part of its vision and mission:

Special attention to students from rural area:

Any educational institution must prioritize its students if it wants to succeed. So, we give them the utmost priority to students belong to rural area..Many aspirants of engineering and management education approach to our institution as it is situated in rural mandal of backward district Srikakulam..One of the main reason to join in our college is most of the students are economically backward. Students come to our college from different places because they are aware of the high quality of education we offer. For the connivance of rural area students, our college provides transport facility to nook and corner places of our district .Thus, our institution encourages to rural student community.

Focus on Economically Backward Students:

Most of the students are economically backward as there are no large scale industries in our district. So, they cannot afford huge amount to study in colleges which are located in metropolis cites .Our institution assists backward students by offering seats with low fees structure, low hostel fee and nominal transport fee.

Supporting holistic Development of students:

SVCET focuses on the holistic development of the students through various innovative classroom practices, hands-on training sessions, training in communication skills, counseling, mentorship, and other extracurricular activities. The institute provides students and faculty with opportunities for co-learning, team building exercises by involving them in organizing seminars/workshops/guest lectures and collaborating in research projects.

Interviews are held on campus to demonstrate candidates' talents and abilities and to offer rewarding employment. Inter-college tournaments and seminars are encouraged for students to take part in as they help them build their excellence. Students' practical skills are strengthened by carrying out a variety of experiments and debating those activities to generate new ideas. Intercollegiate athletic competitions are held to boost their self-confidence

Enhancing Social and Physical Skills:

The institute takes care of development of social skills of the students by encouraging them to participate in different technical, cultural clubs viz., coding, dance, music, photography, etc. The physical wellbeing of the students is also of utmost importance and taken care of by providing adequate facilities to involve themselves in both indoor/outdoor games, sports etc.

Development of Organizational Skills:

Institute prides itself organizing techno-cultural festivals organized regularly by all the departments where students participate in various technical competitions, cultural evenings have played a huge role in lifting the spirits of students and have left a positive impact on them.

Apart from these, all the days of national, scientific, technical importance viz, Independence Day, Republic Day, Gandhi Jayanthi, National Science Day, Environmental Day, Engineer's Day, Women's Day are celebrated in the campus by organizing lectures on the topics of importance, motivational talks from eminent personalities

Results:

It is observed that there is an improvement in students performance in their annual examinations, assignments and weekly examinations and also slow learn student gained advantages. Our institution took

measures in arranging extra classes for their betterment. The mentoring program forces each student identify their academic weaknesses.

Infrastructure:

SVCET believes that infrastructure is backbone to its growth. Students now days give more emphasis on infrastructure features like laboratory equipment, smart classrooms, computer laboratories, etc., while choosing a college. Students' hands-on experience is enhanced when they use equipment with the newest innovations. Every area of the campus, including the classrooms, canteens, seminar rooms, etc., should have reliable wireless internet connectivity. These days, smart classrooms are becoming more and more common. SVCET is committed to support throw infrastructure for the needs of students community.

Department of Civil is extending consultancy services in the areas of material testing, mix design and sampling. Material testing includes soil, aggregate, Bricks, cement etc. Tests on samples are carried out in laboratory and reports are generated.

Placement record:

The institute takes a pride in student's campus placements. A lot of emphasis is laid on the placement initiatives such as campus recruitment training. The institute has tie-ups with course providers and eminent organizations and has with MOUs with number of industries. Over 144 placements in various global corporations in the 2022-23 academic year proved the success of this program. Training program are conducted regularly.

Motto -Service to society:

To cultivate a sense of environmental awareness and social responsibility among students, they are encouraged to serve the nearby community living around our campus. The institute prides itself on its well established NSS programs .It conducts blood donation camps every year. Thus our institution helps by extending services beyond the campus.

Recognition of Distinctiveness and Evaluation:

Finding novel approaches, tactics, and outstanding achievements actually adds value. Developing soft skills, communication skills, decision-making skills, computer skills, professional development training, and personality development measures and empirical learning.

Participating in group discussions, interviews, and debates helps students feel more confident. The fundamental manners that a professional should demand are taught to students.

Students are skillfully polished through a variety of seminars on personality development, communication skills, and enrichment lectures. It encourages the whole personality development of students. These student-led programs help students learn social skills, responsibility and self motivation. Special focus on economically backward and rural area students.

Evaluation:

Evaluation enhances the teaching and learning process, increasing the efficiency. The cutting-edge assessment gauges the knowledge and abilities obtained at various program levels. Our institution is transparent in observing all the evaluation methods prescribed.
